The requirements of the above bill would lay upon the already overburdened steam user an entirely unnecessary additional expense. We therefore petition your honorable body that in a time like this you will, so far as possible, relieve us from present burdens, rather than impose upon us additional and, in our opinions, unnecessary taxation, which must be borne by individuals and companies already burdened to an extent almost beyond the pecuniary point of endurance, and which would necessarily retard and jeopardize many of the permanent interests of our citizens and the State.

STATEMENT.

The following statement by the Superintendent of State Printing was submitted by the Speaker, and was ordered printed in the Journal:

HON. FRANK L. COOMBS, *Speaker of the Assembly*

MY DEAR SIR: I address you in your official capacity concerning certain charges that have been made against the State Printing Office, and concerning a bill that originated in your House, appropriating \$75,000 for carrying on the State Printing Office for the remainder of the fiscal year.

Many charges of a wild and fantastical nature have been made against me and the institution under my charge, and I have hitherto refrained from answering them, because to those who were familiar with the office the charges were so ridiculous that an answer seemed unnecessary; but inasmuch as a concerted attack seems to be made by certain persons to misrepresent the facts, I have been advised by my friends that it is due to myself that I shall make a statement concerning these matters.

In the first place, with the exception of my salary, and possibly a few dollars that I may receive for contingent expenses, I do not handle, and under the law could not handle, one dollar of the State's money. Every claim charged against the appropriation for the support of the State Printing Office must, before it is paid, receive the sanction of the State Board of Examiners, consisting of the Governor, a Democrat, and of the Secretary of State and Attorney-General, Republicans. It then passes to the Controller of State, who, if he is satisfied with the claim, draws a warrant therefor, and it is paid out of the State Treasury to the person who presents the claim. Every claim that has been paid during my administration of this office has been paid in this manner, and every claim has received the sanction of the Board of Examiners. It would be absolutely impossible for me, even if I so desired, to use for my own purpose one dollar of the State's money.

A charge has been made that names of persons who do not exist have been carried on the payroll. These charges, if true, would simply condemn the Governor, Secretary of State, and Attorney-General, who pass upon these claims, and the Controller, who delivers the warrants. This statement, I say most emphatically, is untrue, and nobody could draw any money in this way without committing a forgery. It is the practice in most of the State institutions for the person in charge to draw one warrant, and to give his check to the individuals entitled to the respective amounts. Under the law I cannot follow this practice, and have not followed it; but every person, no matter how small his claim may be, who has a claim against the State, payable out of the appropriation for the State Printing Office, receives a warrant therefor.

It has been charged that there is a discrepancy between the Controller's books and mine. This is absolutely untrue, and in the very nature of things could not be true. The Controller is the bookkeeper of the State, and his are the books to be governed by.

For my own convenience, I have kept an account with the different institutions and officers of the amount of stationery and printing ordered by them respectively, so that those who desired might know the amount consumed by each department of the State.

In estimating the amount so consumed, I have made a rough estimate, taking into consideration the composition, stock, presswork, and binding; but I have not counted as a charge against these institutions or departments other expenses, consisting of light, heating, power, repairs, and sundry other expenses, which are chargeable to this institution as a whole. All that anybody has to do who desires to know the truth is to add up the costs charged to the various institutions for presswork, composition, etc., as I have described, together with the other expenses that I have enumerated, and the stock on hand, and the sum total will equal the amount shown by the Controller's books, and it possibly could not be otherwise, unless the Governor of the State, the Attorney-General, and the Secretary of State were in collusion with me, which I believe nobody has as yet charged.

There is one other fact to be borne in mind in this matter, and that is, that every officer and department of the State sends to me for such printing as he or it may desire, and I am given very little, if any, discretion in the matter, unless I believe that the matter asked for is excessively extravagant, when it would be my duty to interfere.

The laws of the State are faulty, in that they do not require that each department and officer should pay out of the appropriation made for it or him, the amount of printing done for him or his department; but over this I have no control. I am satisfied that if the institutions of the State were required to pay for printing out of their appropriation, the demand upon me would be much less than it has been.

In the management of this office I have followed union rules, and employed union men, and paid the union rate of wages. I am free to confess that if the State desires to inaugurate a policy of having work done for less than union rates, and not in accordance with union rules, a slight saving might be effected; but that is for your body to determine. So far as I am concerned, I desire to say that until the law is changed, and as long as the matter is left to my discretion, I shall run it as a union printing office, as I am a union printer myself.

Ever since the inauguration of the State Printing Office there has been a concerted attack made by persons and establishments who desire to have the work done by contract. There have also been frequent attempts made to prevent the State from publishing State text-books. These are matters of legislative policy for the Legislature to determine.

I have already asked, as you know, that a joint committee from both houses be appointed to investigate the State Printing Office, when these matters can be verified and elaborated in detail.

For your information I append to this letter a statement from the Controller of State, showing that every dollar that has been expended by the State Printing Office has been upon claims audited and allowed by the State Board of Examiners and paid upon Controller's warrants.

In many, if not in most of the State institutions, there is a contingent fund which is expended by them without being passed upon by the Board of Examiners, or by the Controller. This is not the case with the State Printing Office. The State Printing Office collects no money of its own, and handles no money, and it is absolutely impossible for any discrepancy to exist unless it be by collusion with the Board of Examiners and State Controller and State Treasurer. It, therefore, is apparent that charges of this nature are absolutely groundless.

I would respectfully ask that this communication be read in your House and printed in the Journal.

I have the honor to remain,

Your obedient servant,

A. J. JOHNSTON,  
Superintendent of State Printing.

*State of California, County of Sacramento, ss*

I, Edward P. Colgan, State Controller of the State of California, do hereby certify that all money expended for the State Printing Office has been paid upon claims presented to and allowed by the State Board of Examiners and paid upon warrants issued from my office and paid by the State Treasurer.

I further certify that the State Printer collects no money himself, and that it is impossible for any money to be spent except upon claims allowed by the Board of Examiners and by the Controller.

I further certify that the State Printer draws no money himself except his salary, and small items for postage and traveling expenses, and that all warrants are issued to the party directly who performed the services or furnished the supplies, and that warrants are delivered by me to such persons only, or their authorized agent.

I further certify that there are vouchers on file for every claim that has been allowed against the appropriation for the support of the State Printing Office, and that my books correctly show the amount of money that has been allowed and expended for that purpose, and that there is not, and cannot be, any discrepancy between my accounts and the accounts of the State Printer authorized by law to be kept.

E. P. COLGAN, State Controller.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,  
SACRAMENTO, February 19, 1897.

*To the Senate and Assembly.*

GENTLEMEN: The State Board of Trade, by its properly constituted committee, has waited upon me and submitted a statement of the character of many of the immigration schemes projected by parties within the State, and of the injury which our legitimate interests have sustained abroad by the frequent misrepresentations of private parties seeking to trade upon the reputation and acknowledged merit of California. It is an acknowledged fact, with which you are doubtless familiar, that, while this State affords a wealth of opportunity for honest and productive investment, and offers an almost limitless variety of opportunities for the poor or wealthy home-seeker to satisfactorily establish himself, great injustice is done, and much hardship inflicted upon a large number of persons annually, who are lured within our State by dishonest promoters or speculators, and who are induced to pay high prices for barren, arid, or otherwise unproductive land.

Our State has honestly earned a reputation abroad as possessed of a peerless soil and climate, and it should be our concern, as it is our duty, to preserve that reputation untarnished as a source of progress and an object of pride. I submit to you herewith the communication of the Committee of the State Board of Trade, which is self-explanatory. If you deem it wise to place some restriction or regulation upon immigration schemes, or if you desire to constitute some authority which shall pass upon their character or integrity by which investors abroad will be protected, I will be pleased to cooperate with you, hoping it will result in correcting serious evils which we know to exist. No additional expenditure need, however, be incurred for a new commission for the purpose outlined in the communication, as we already have in the State Board of Agriculture a body peculiarly fitted, by reason of their calling and general distribution throughout the State, for this purpose.

I submit this matter to your careful consideration.

JAMES H. BUDD, Governor

SAN FRANCISCO, February 15, 1897.

*Honorable JAMES H. BUDD, Governor of California, Sacramento, Cal.:*

DEAR SIR: Your Excellency is no doubt aware of the fact that in September last a report of the Consul-General residing in San Francisco, and representing Great Britain in the consular service of that country, was transmitted to Parliament. In general effect that report declared that for the most part the colonization schemes projected in this State were fraudulent and deceptive. The sovereign of Great Britain indorsed these statements sufficiently to cause the document to be transmitted to the British Parliament, and the representations therein made have become in a sense the official expression of that Government.

Unfortunately for our State, the strictures contained in the document have for the most part a degree of justification in the facts of the case. There are now offered on the markets colony lands in which no intelligent Californian would invest. They are addressed to foreign ignorance, and designed only for the attention and patronage of those whose lack of information makes them easy victims of dishonest immigration schemes. It is no part of the present purpose in addressing you to present or expose these schemes. We, therefore, content ourselves by the declaration of facts, for the verification of which we have ample evidence. The situation herein outlined calls for remedial measures.

In the first instance, the representation made by the Consul-General of Great Britain and its official indorsement by the sovereign of that country is a condemnation, which,

while intended only for the condemnation of fraudulent schemes, will necessarily be extended in its effect to the most beneficent and advantageous enterprises.

California, notwithstanding its age, is a country of large extent occupied by a relatively small population. Our condition is such as to make a reinforcement of our capital and population most desirable. We have natural resources which, when developed, will prove a rich reward to enterprise and intelligently directed capital. But our representations concerning these resources and our presentation of the inducements they offer are now very broadly discredited throughout the world.

If these representations were wholly false, if they had no foundation in fact, the case would be different; but unfortunately the evidence that many fraudulent schemes have been projected, and have resulted disastrously to those who were deceived by them, gives not only color but demonstration of fraud which, as already indicated, will attach to all representations which may be made on behalf of our commonwealth.

This situation demands remedies. The first of these is to establish some instrumentality of an official character which will expose and denounce the projectors of fraudulent and deceptive colonization undertakings. In the next instance, the ordinary unofficial methods of the defense of the State against the broader inferences of the charges already made, and in part substantiated, are insufficient to the accomplishment of the purpose.

In times past the price of land in California has been high. The richest fruit lands in the State have been held at prices which no use to which they might be devoted would justify. The general farming lands of the State were held at prices which forbade all expectation of a reasonable return upon the capitalized investment.

These conditions have passed away. California in the past has presented an example wherein the price of its real estate was not correlated with the density of population. In all countries there has been a fixed relation of value between the soil, the original source of all wealth, and the density of population occupying the country embracing that soil. California for a long time appeared to be an exception to this rule; but it is no longer so. Very high prices for the farming and fruit lands of California are no longer obtainable, nor even asked. The depressed state of business throughout the world has wrought its perfect work in California in the direction of eliminating false factors in all valuations. The average value of all classes of agricultural land in California is not to-day thirty per cent of that placed upon it during the decade between 1880 and 1890.

Men forego home ties, break up home relations, sever themselves from kindred and from friends, only because they believe they can better their condition financially, morally, and socially. The sober question which confronts us in inviting a reinforcement of our population is, Do the conditions of California in their financial, educational, religious, moral, and social aspects offer superior inducements to those existing in the more densely settled portions of our country? If they do not, then in the very incipency of the case an invitation extended to people to break their home ties and become citizens of our commonwealth is in its nature a deception.

We who address you in this communication, and the organization we represent, believe that California offers inducements superior to those of many more densely settled countries, and entertaining that opinion, we also entertain the belief that in inviting immigration to California we are conferring a favor, not only upon this commonwealth, but upon those who accept that invitation. Never before the present time in the history of this State have the inducements to immigration been so great.

Men dispose of the property they have accumulated and make investments in new countries in the hope of acquiring the ownership of property in the new location in advance of its developed value. They expect, as they have a right, that the increment of value on the property they purchase will reinforce their own industry and economy in acquiring wealth. For many years past this hope or expectation could not be realized with reference to California. The inflated prices at which the lands of the State were held forbade this expectation.

All this is changed. Lands are no longer held at values which anticipate development; and out of this grows the opportunity of reaping the reward of that enhancement which will necessarily ensue upon the more dense settlement of our State. All the conditions inviting immigration to this State have improved. The rate of transportation has a steadily downward tendency. The cost of living constantly declines. The original cost of planting an orchard has been very greatly diminished. A ripe experience as to the science of horticulture and agriculture affords guaranty against the costly mistakes of ignorance. In every aspect of the case the invitation which the people of California can now extend to the home-seekers of the world has better justification than at any time in the history of the commonwealth. At this juncture the reputation of our State as a desirable place for residence has received the broadest injury.

These matters are of the highest importance to the State of California. They are of even greater importance than the question of exhibiting the products of the State at Eastern or foreign expositions. We are confronted by a condition which will deny to us our due share of the immigration which seeks new homes each year.

The State Board of Trade, an organization composed of representatives from the various counties of the State, has had these matters under consideration, and has appointed the signers of this communication a committee to present the matter to your Excellency, accompanied by a petition that the facts herein presented be made the subject of a special message to the Legislature, accompanied by the recommendation that a Commission of Immigration be created and established, whose duty it shall be to insti-

tute inquiry into the character of all colonization schemes projected in this State, and to commend or condemn according to the merit or demerit of such schemes.

The only adequate or effective defense the State can now make against the injurious representations which have received such high official indorsement will be through the deliberate conclusions of an official body, one representing the Government of the State of California, and therefore charged with a high accountability. The testimony of such an authority will be received, respected, and believed, while the representation of the voluntary immigration instrumentality will be regarded as partial, interested, and unreliable.

We, therefore, have the honor to petition that your Excellency present to the Legislature, in the form of a special message, such statement of the changed and improved conditions in this State as bear upon its natural resources, the opportunities of their development, and the general desirability of the State as a place of residence.

We also respectfully urge upon your thoughtful attention the suggestion herein made of the creation of a State Commission of Immigration, the function and office of which would be to protect the people of California against the injurious results of fraudulent schemes projected only in the interest of private speculation. All misrepresentation of this kind can work only injury to this commonwealth, and a State commission, composed of patriotic and honorable men, armed with the authority of the law, and representing in an official capacity the people of the State of California, would make only truthful representations; and with this high official indorsement the truth concerning our State would be received and believed.

We forego further detail of outline, leaving to your better understanding of the subject and your better facility of suggestion the elaboration of the plan herein generally outlined.

Respectfully representing to you the gravity of the situation, we have the honor to remain,

Yours respectfully,

WM. H. MILLS,  
San Francisco, Chairman;

Tehama County, President State Board of Trade;

By ALF. D. BOWEN, Assistant.

MOTIONS.

Mr. Dibble moved that Senate Concurrent Resolution No. 6 be returned to the Senate, and that the Senate be respectfully informed that the Assembly declines to consider the question of the right of a Senator to introduce a bill in the Senate; furthermore, that the Senate be respectfully informed that, in the opinion of the Assembly, the right of a member of either house to introduce a bill upon any matter, after fifty days from the commencement of the session, with the consent of two thirds of the members of the house in which such bill is offered by a member thereof, is a constitutional right which cannot be limited or controlled by a rule of either house, or of a joint rule of the two houses; that in so far as Joint Rule XLVIII attempts to limit the right of a member to introduce a bill as suggested, it is, in the opinion of the Assembly, absolutely void.

Adopted.

Mr. Dibble moved that a message be sent to the Senate requesting a conference of the two houses, with the view of the immediate abrogation of Joint Rules XL and XLVIII, which are, in the opinion of the Assembly, unconstitutional and void, in that they attempt to limit the constitutional prerogatives of the separate houses in the matter of the consideration and passage of bills, and the constitutional prerogative of the members of the two houses in the matter of the introduction of bills.

Adopted.

REPORT OF SPECIAL COMMITTEE—(OUT OF ORDER).

SAN LUIS OBISPO VISITING COMMITTEE.

ASSEMBLY CHAMBER, SACRAMENTO, February 24, 1897.

MR. SPEAKER: Your sub-committee appointed to visit San Luis Obispo and report upon the feasibility of locating a polytechnic school at that place; also, the site for the proposed Reform School for Girls at Santa Clara, the State Normal School at San José, and the State Asylum for the Insane at Agnews, beg leave to report as follows:

The citizens of San Luis Obispo are fully awake to the necessity of such a school as is sought to be established by the bill now pending. They are unanimous in their desire for it, and are liberal in their offers of assistance in the founding of the school. Several sites of from five to ten acres each are offered without expense to the State, and the beautiful Hotel Ramona can, your committee is assured, be secured at a very reasonable figure. From the facts presented to and the observations made by your committee, it is of the opinion that the location is in every way desirable, and they recommend that the bill do pass.

In regard to the property of the State at Santa Clara, to which it is proposed to transfer the girls from the Whittier Reform School, your committee is of the opinion that the property is not desirable for the purpose. The buildings now on the property are in a very bad condition, and could not be made habitable without the expenditure of a very large amount of money, and they would even then be merely a makeshift. There is also more land than can be utilized by the Reform School. We advise the sale of the property and that the proceeds be applied toward the construction of a suitable building for the Reform School at some proper place in the State.

The State Asylum for the Insane at Agnews was found to be in good condition. Many improvements have been made about the property in which the labor of the patients has been employed to advantage. The male wards are very much overcrowded. An appropriation of \$22,000 is asked for the construction of two cottages, to accommodate fifty-five convalescent patients in each cottage. The Trustees agree that if the appropriation for construction is granted they will furnish the buildings from their contingent fund. It is proposed to erect these cottages at some distance from the main buildings in order that convalescent patients may be removed as far as possible from the sights and sounds which have a tendency to retard their recovery. An appropriation is also asked for sinking a gas well to furnish fuel for the institution. This would be largely a matter of experiment, although some indication of gas has been found here. We believe the management of the institution to be all that could be desired, and that its business affairs are conducted in a careful and economical manner.

Also: Your special sub-committee which was appointed to visit San Luis Obispo and report upon the feasibility of locating a State school at that place; also, the site for the proposed Whittier Reform School for Girls at Santa Clara, the State Normal School at San José, and the Insane Asylum at Agnews, beg leave to report that they have performed their duty, and that the expenses incurred for railroad tickets, hotel bills, etc., were as follows:

J. O. Vosburg.....	\$45 00
E. D. Damon.....	45 00
S. M. Bettman.....	45 00
L. Harris.....	45 00
E. F. Lacy.....	45 00
Total .....	\$225 00

Resolved, That the Controller be and hereby is directed to draw his warrant in favor of each of the above-named members of the committee for the amounts due them as per statement, said warrant to be drawn upon the fund for contingent expenses of the Assembly, and the Treasurer is directed to pay the same.

LACY, Chairman Sub-Committee.

MESSAGES FROM THE GOVERNOR.

SACRAMENTO, February 26, 1897. }

*To the Assembly of the State of California—*

I have the honor to inform your honorable body that I have approved Assembly Bills Nos. 11 and 453.

JAMES H. BUDD, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }  
SACRAMENTO, February 25, 1897. }

*To the honorable Assembly of the State of California*

GENTLEMEN: Assembly Bill No. 419 passed your honorable body on January 29th; was then transmitted to the Senate, where, on February 16th, it was amended. It was thereafter, February 19th, passed by the Senate. I do not find that the amendments of the Senate have been concurred in by your honorable body, probably because of a mistake in the Senate message of transmission. Said bill has been transmitted to me for my approval.

The same state of facts exists with reference to Assembly Bill No. 76, which passed your honorable body on February 8th, was amended in the Senate on February 16th, and by it passed on February 19th. The records do not show any concurrence by the Assembly in the Senate amendment. The bill, however, has been transmitted to me for my approval. The error undoubtedly arose owing to the defects in the message of transmission. (Page 15, Assembly History, February 19, 1897.)

I call your attention to these facts that such bills may be withdrawn by your honorable body for further action. This withdrawal should be had on the joint action of both houses.

JAMES H. BUDD, Governor.

Referred to Committee on Rules and Regulations.

Assembly Bill No. 151—An Act to provide the mode of changing grades of public streets, lanes, alleys, courts, and places within municipalities in the State of California.

Read second time.

The following amendment was submitted:

Amend by striking out all after the enacting clause, and insert the following :

SECTION 1. The City Council of any municipality, when the public convenience may require it, are hereby empowered to change or modify the grade of any public street, lane, alley, place, or court, in the manner and as hereinafter provided. Before any change of grade is ordered the City Council shall pass a resolution of intention to make such change or changes of grade, and shall publish a copy of said resolution in a newspaper in which the official notices of the City Council are usually printed and published, such newspaper to be designated in the resolution of intention. Said resolution shall be published in every regular issue of such newspaper for not less than ten days, and shall describe the proposed change of grades, and shall designate the district to be affected thereby; and within the limits of said district when the same shall have been finally determined, as hereinafter provided, the lots of land to be benefited by such change of grade shall be assessed to pay any damage that may be awarded by reason of the change. One or more streets, or blocks of any street or avenue, may be embraced in the same proceedings: *provided*, that not more than three entire blocks in length in each street or avenue shall intervene between the changes of grade proposed and designated in such proceedings. Within five days after the first publication of the resolution of intention, the Superintendent of Streets shall cause to be conspicuously posted within the district designated in the resolution, notices of the passage of said resolution. Said notices shall be the same in all requirements of contents and posting as the "Notice of street work," provided for in section three of an Act entitled "An Act to provide for work upon streets, lanes, alleys, courts, places, and sidewalks, and for the construction of sewers within municipalities," approved March eighteen, eighteen hundred and eighty-five. If no protest as hereinafter provided to said proposed change or changes of grade, or the extent of said district, shall be filed with the clerk of the City Council within thirty days from the first publication of the resolution of intention hereinbefore mentioned, the City Council shall thereafter declare such grades to be changed and the said district to be established in conformity to said resolution of intention.

SEC. 2. Within thirty days after the first publication of the resolution of intention, the owners of one half or more of the frontage of the property upon the street or streets of which the grade is proposed to be changed, and lying within the district therein designated, may file a written protest against such proposed change of grade, stating the number of feet of such frontage owned by the person or persons making such protest, and signed by such owners. Such protest, when representing one half, or more, of the frontage of the property, upon such street or streets, within the district designated, shall terminate all proceedings for the proposed change of grade for not less than six months, after which time proceedings for the change of grade may again be begun as provided herein, subject to the right of the owners of one half or more of said frontage to protest each time as hereinbefore provided, and with like effect. A protest to the extent of the district of lands to be affected, benefited, or damaged by said work or improvement and to be assessed to pay the costs, expenses, and damages thereof, may be filed by any person or persons owning real property within the proposed district, in writing, signed by each and giving his post office address, within thirty days after the first publication of the notice of the passage of the resolution of intention. The City Clerk shall lay said protest before the City Council, which shall, at its next meeting, after the expiration of said period of thirty days, fix a time for hearing said objections, not less than ten days thereafter. The City Clerk shall thereupon notify the person or persons making such protest by depositing a notice thereof in the post office of said city, postage prepaid, addressed to each protestant. At the time specified the said Council shall hear the objections urged, and pass upon the same, and finally establish the district to be affected thereby, and its decision shall be final and conclusive. At such hearing the City Council may modify or change the size of the district, but notice of such modification or change shall be given in the same manner as upon said resolution of intention, and upon such notice being given the property owners within the district as modified or changed shall have a like right to make objections to the size of the district as upon the original resolution of intention. If the objections are overruled by the City Council, proceedings shall continue the same as if such objections had not been made. At the expiration of the time prescribed, during which the aforesaid protests may be filed, if no such protest or protests shall have been filed, or if a protest shall have been filed to the extent of the said district, and said Council, after hearing shall have overruled the same, the City Council shall be deemed to have acquired jurisdiction to order said change of grade, as authorized by section one of this Act.

SEC. 3. Within twenty days after the said district shall have been finally established, any person owning land therein, and claiming damage by reason of such change of grade, shall file a petition with the City Council, or Clerk thereof, setting forth in such

petition a copy of the notice, the fact of the petitioner's ownership, his post office address, the description and situation of the property claimed to be damaged, its market value, and the estimated amount of damages over and above all benefits which the property would sustain by the proposed change if completed, and asking the appointment of commissioners to assess and report to the City Council the amount of damages and benefits that will be sustained by the property by reason of such change. The owners of two or more lots of land affected by such change may unite in the same petition, and when more than one petition is filed, the City Council may act upon all the petitions jointly. Each petition shall be verified by the oath of one of the petitioners therein named, or by the agent of such petitioner.

SEC. 4. If the petition mentioned in the preceding section of this Act be filed, as therein provided, the City Council shall fix a time and place for the hearing of the same, which hearing shall be not less than ten days after the expiration of the twenty days allowed for filing such petitions, and shall give notice thereof to said petitioner or petitioners. A notice shall be deposited in the post office at the place of hearing at least five days before the time of hearing, postage prepaid thereon, and addressed to each of said petitioners at his post office address, as contained in his said petition. Said notice shall designate the time and place of hearing of the petition, and shall notify the petitioner that the City Council, or a committee thereof, will at such hearing take such legal evidence and hear such witnesses, under oath (which oath may be administered by any member of the Council), as he may produce in support of his petition. The City Council, or its committee, may subpoena such witnesses to appear and testify at the hearing as may be deemed necessary, and after hearing the testimony shall thereupon proceed to act upon the petition, *provided*, that no action shall be taken upon said petition until proof by affidavit shall have been made of the mailing of the notice, as provided herein.

SEC. 5. If the City Council shall find that the petition does not present a proper case for the payment of damages, it shall notify the petitioner, by a written notice, duly mailed to him at the post office address designated in his petition, that such petition is denied, and fifteen days after mailing such notice, the City Council may proceed to change the grade the same as if no such petition was filed. If, after the hearing of the petition, the City Council shall by its judgment thereon decide that the petition presents a proper case for the payment of damages, it shall so notify the Mayor, who shall appoint a commission of three citizens who are freeholders within the city, or city and county, and who are not interested in the lands to be assessed, to assess the benefits and damages to each separate lot of land as the same appears of record on the last assessment roll within the limits designated in the resolution of intention.

SEC. 6. The commissioners, when appointed, shall be sworn to make the assessments of benefits and damages to the best of their judgment and ability, without fear or favor, and that they have no interest in the controversy, nor in any of the land within the limits designated. Upon subscribing to the oath, and filing the same, and a bond to be approved by the Mayor in the penal sum of five thousand dollars, conditioned for the faithful discharge of their duties, with the City Council, the said commissioners shall be qualified to discharge their duties in the premises.

SEC. 7. The commissioners shall visit and inspect all the lots of land and improvements appurtenant thereto, within the district established as aforesaid. The commissioners shall have power to subpoena witnesses to appear before them, and examine, under oath, which any one of them shall be authorized to administer, any witnesses produced before them by any party, touching the matter to be investigated, and such other witnesses as they may deem necessary to fully acquaint themselves with the actual amount of benefits and damages which will result to the respective parties interested in the proposed change.

SEC. 8. The commissioners, having determined the damage which will be sustained by each petitioner in excess of all benefits, shall proceed to assess the whole amount thereof, together with the costs, charges, and expenses of the proceedings, including the compensation of the commissioners for their services, ratably upon the several lots of land benefited within the limits of the district, so that the same shall be distributed according to the benefits produced by such change as nearly as possible. The commissioners shall receive for their services not more than five dollars per day for a period to be fixed by the Mayor when making the appointments, not exceeding three months, unless such time be further extended by the Mayor, and during the progress of their work shall make such reports to the City Council as the City Council may require. The said commissioners shall not be allowed to sell, transfer, or assign any claim or demand which they, or either of them, may have for their said services, and any sale, transfer, or assignment of any such claim or demand shall be null and void.

SEC. 9. The commissioners shall make their report in writing, and shall subscribe the same and file it with the City Council. In their said report they shall describe separately each piece of property which will sustain damage, stating the amount of damages which it will sustain over and above all benefits. They shall also give a brief description of each lot benefited within the designated limits, the name of the owner, if known, and the amount of benefit in excess of damage assessed against the same. When the amount of benefit and damage assessed to a lot is equal, such fact shall be stated in the report. In case the three commissioners do not agree, the award agreed upon by any two of them shall be sufficient. In designating the lots to be assessed, reference may be had to a diagram of the property in the district affected, such diagram to be attached to and form a part of the report of the commissioners. \*

SEC. 10. If, in any case, the commissioners find that conflicting claims of title exist, or shall be in ignorance or doubt as to the ownership of any lot of land, or of any improvements thereon, or of any interest therein, it shall be set down as belonging to unknown owners. Error in the designation of the owner or owners of any land or improvements, or of the particulars of their interest, shall not affect the validity of the assessment. On the filing of said report, the clerk of said City Council shall publish notice of such filing for at least ten days in one or more daily newspapers printed, published, and circulated in said municipality, or if there be no such daily newspaper, by not less than three successive insertions in a weekly or semi-weekly newspaper so printed, published, and circulated. Said notice shall also require all persons interested to show cause, if any, why such report should not be confirmed before the City Council, on or before a day fixed by the City Council, and stated in said notice, which day shall not be less than twenty days from the first publication thereof.

SEC. 11. All objections shall be in writing and filed with the clerk of the City Council, who shall, at the next meeting after the day fixed in the notice to show cause, lay the said objections, if any, before the City Council, which shall fix a time for hearing the same, of which the clerk shall notify the objectors in the same manner as the notice specified in section four of this Act is required to be given, to appear at the time set, or at such other time as the hearing may be adjourned to. The City Council shall then hear such objections and pass upon the same, and at such time, or such other time as may be fixed, shall proceed to pass upon such report, and may confirm, correct, modify, or reject the same, or may order the commissioners to make a new assessment report and plat, which shall be filed not later than one month from the date of making such order. Notice shall be given and hearing had as in the case of an original report, which second report shall be subject to like action by the City Council, *provided, however*, that should the second report be rejected by the City Council, the commission shall terminate, and thereupon a new set of commissioners shall be appointed by the Mayor.

SEC. 12. The clerk of said City Council shall forward to the Street Superintendent of the city a certified copy of the report, assessment, and plat, as finally confirmed and adopted by the City Council. Such certified copy shall thereupon be the assessment roll, the cost of which shall be provided for by the commissioners as a portion of the cost of the proceedings herein. Immediately upon receipt thereof by the Street Superintendent, the assessment therein contained shall become due and payable, and shall until paid be a lien upon each respective lot or piece of the property contained or described therein, for the amount assessed upon each lot.

SEC. 13. The Superintendent of Streets shall thereupon give notice by publication for ten days in one or more daily newspapers published and circulated in said city, or city and county, or by two successive insertions in a weekly or semi-weekly newspaper so published and circulated, that he has received said assessment roll, and that all sums levied and assessed in said assessment roll are due and payable immediately, and that the payment of said sums is to be made to him within thirty days from the date of the first publication of said notice. Said notice shall also contain a statement that all assessments not paid before the expiration of said thirty days will be declared to be delinquent, and that thereafter the sum of five per cent upon the amount of each delinquent assessment, together with the cost of advertising each delinquent assessment, will be added thereto. When payment of any assessment is made to said Superintendent of Streets, he shall write the word "paid" and the date of payment opposite the respective assessment so paid, and the names of persons by or for whom said assessment is paid, and shall give a receipt therefor. On the expiration of said thirty days all assessments then unpaid shall be and become delinquent, and said Superintendent of Streets shall certify such fact at the foot of said assessment roll, and shall add five per cent to the amount of each assessment so delinquent.

SEC. 14. The said Superintendent of Streets must within ten days from the date of said delinquency publish the delinquent list, which must contain the names of the persons, and a description of the property delinquent, and the amount of the assessment and costs and percentage due, including the cost of publication of said delinquent list for each name and piece proportionally, which last shall not exceed the sum of one dollar for each lot, piece, or parcel of land separately assessed. He must append and publish with the delinquent list a notice that unless the assessments delinquent, together with the costs and percentage, are paid, the real property upon which the same are a lien will be sold at public auction. The publication must be made once a week for three successive weeks in some newspaper or supplement thereto published in such city or municipality, and must designate the time and place of sale. The time of sale must not be less than twenty-two nor more than thirty days from the first publication, and the place must be at the office of the said superintendent, or in front thereof.

SEC. 15. As soon as the superintendent has made such publication, he must file with the County Recorder of the county within which such city or municipality is situated, a copy of the publication, with an affidavit attached thereto that it is a true copy of the same, that the publication was made in a newspaper or supplement thereto, stating its name and place of publication, and the date of each appearance.

SEC. 16. Said superintendent must collect, in addition to the assessment due on the delinquent list, the five per centum added thereto, and the proportional cost of the publication of said delinquent list on each lot, piece, or tract of land separately assessed.

SEC. 17. On the day fixed for the sale, or on some subsequent day to which he may have postponed it, of which he must give notice, the said superintendent, between the hours of ten o'clock A. M. and three P. M., must commence the sale of the property adver-

tised, commencing at the head of the list and continuing in the order as advertised until completed. He may postpone the day of commencing the sale from day to day, but the sale must be completed within three weeks from the day first fixed. The person who will take the least quantity of any real estate offered for sale, or in case an undivided interest is assessed, then the smallest portion of the interest, and pay the assessment and costs and percentage due, including fifty cents to the said superintendent for the duplicate certificate of sale, is the purchaser. If the purchaser does not pay the taxes and costs before ten o'clock A. M. of the following day, the property must then be resold for the assessment, costs, and percentage. The bid of any person refusing to make the payment for property purchased by him must not be received for the sale of any other property on the delinquent list. If, at said sale, no person shall in good faith bid the amount of said assessment with the aforesaid cost, the Superintendent of Streets shall bid in the lot for the amount of assessment and costs, in the name of the municipality, and upon his filing a certificate of said sale with the Treasurer of such municipality, the Treasurer shall transfer, from any money in the treasury not specially appropriated, the amount so bid to the fund for the change of grade for which the assessment was made.

Sec. 18. After receiving the amount of the assessment and costs, the said superintendent must make out, in duplicate, a certificate, dated on the day of sale, stating (when known) the name of the person assessed, a description of the land sold, the amount paid therefor, that it was sold for said assessment, giving the amount thereof, and specifying the time when the purchaser will be entitled to a deed. The certificate must be signed by said superintendent and one copy delivered to the purchaser and the other filed in the office of the County Recorder of the county in which such city or municipality is situated. Said superintendent, before delivering any certificate, must, in a book, enter a description of the land sold, corresponding with the description in the certificate, the date of sale, purchaser's name, and amount paid, regularly number the descriptions on the margin of the book, and put a corresponding number on each certificate. Such book must be open to public inspection, without fee, during office hours, when not in actual use. On filing the certificate with said County Recorder, the lien of the assessment created by this Act vests in the purchaser, and is only divested by the payment to him, or to the said superintendent for his use, of the purchase money and thirty per cent thereon.

Sec. 19. A redemption of the property sold may be made by the owner, or any party in interest, within twelve months from the date of the purchase, by the payment to the purchaser, or to the Superintendent of Streets, for his use, of the purchase money and thirty per cent thereon. When redemption is made to such superintendent he must credit the amount paid to the person named in the certificate, note such payment upon the assessment record in his office, and pay it on demand to such person or his assignees. On receiving the certificate of sale, the County Recorder must file it and make an entry in a book similar to that required of the superintendent, and on the presentation of the receipt of the person named in the certificate, or of said superintendent, for his use, for the total amount of the redemption money, the County Recorder must mark the word "redeemed," the date, and by whom redeemed, on the certificate and in the margin of the book where the entry of the certificate is made. No charge shall be made by the County Recorder for any of the services to be performed by him under this Act.

Sec. 20. If the property is not redeemed within one year after said sale, the superintendent, or his successor in office, must make to the purchaser or his assignee a deed of the property, reciting in the deed substantially the matters contained in the certificate, and that no person has redeemed the property within the time allowed for its redemption. The superintendent shall receive from the purchaser three dollars for making such deed.

Sec. 21. The deed of the Street Superintendent, made after such sale, in case of failure to redeem, shall be prima facie evidence of the regularity of all proceedings hereunder, and of title in the grantee. The Superintendent of Streets shall, from time to time, pay over to the City Treasurer all moneys collected by him on account of any such assessments. The City Treasurer shall, upon receipt thereof, place the same in a separate fund, designating such fund by the name of the street, square, lane, alley, court, or place for the change of grade of which the assessment was made. Payments shall be made from said fund to the parties entitled thereto upon warrants signed by the commissioners, or a majority of them.

Sec. 22. When sufficient money is in the hands of the City Treasurer, in the fund devoted to the proposed work or improvement, to pay for the damage to the land and improvements damaged, and when the discretion of the commissioners, or a majority of them, the time shall have come to make payments, it shall be the duty of the commissioners to notify the owner, possessor, or occupant of any land or improvements thereon to whom damages shall have been awarded, that a warrant has been drawn for the payment of the same, and that he can receive such warrant at the office of such commissioners, such notification to be made by depositing a notice, postage paid, in the post office, addressed to his last known place of abode or residence. If, at the expiration of thirty days after the deposit of such notice, he shall not have applied for such warrant, the warrant so drawn shall be deposited with the County Treasurer and shall be delivered to such owner, possessor, or occupant, upon written demand therefor by him or his legal representatives.

Sec. 23. The Treasurer shall pay such warrants out of the appropriate fund, and not otherwise, in the order of their presentation; *provided*, that warrants for land or

improvements damaged shall have the priority over warrants for charges and expenses, and the Treasurer shall see that sufficient money is and remains in the fund to pay all warrants of the first class before paying any of the second.

SEC. 24. Upon payment to the City Treasurer of the amount of the assessment sufficient to pay for the damage to land and improvements, the City Council shall declare the grade to be changed in accordance with the resolution of intention, and said change of grade shall thereupon be established.

SEC. 25. If the grade of any street which shall have been sewered and paved and accepted by the City Council in such manner that the municipality has undertaken to keep such street in repair at the public expense shall be changed, the expense of grading the same to the changed grade shall be assessed to and payable by the owners of property abutting thereon, in accordance with all the provisions of this Act; but the expense of all other work rendered necessary upon the accepted portion of such street by such change of grade thereof shall be borne and paid by the municipality in which the work is done.

SEC. 26. Any party who has, pursuant to the provisions of section three of this Act, claimed damages to accrue from a change of grade, who is dissatisfied with the action of the City Council thereon, may, within ten days after notice of such action has been mailed to his address, as required by section four of this Act, appeal to the Superior Court of the county, or city and county; and any person dissatisfied with the assessment of benefits and damages may appeal therefrom within ten days after action has been taken thereon by the City Council, as provided in section eleven of this Act.

SEC. 27. Such appeal shall be taken by making application for a writ of review in accordance with the provisions of title one of part three of the Code of Civil Procedure of California, and shall have precedence over all other business before said court, except the trial of criminal causes. Upon the hearing of the matter in the Superior Court, the record of the proceedings before the City Council shall be prima facie evidence of the facts therein shown, and the court may receive and consider other evidence pertinent to the matters set forth in the application for a writ of review. Upon the hearing of the appeal, the court may review all matters affecting the proceedings before the City Council, and may set aside, or confirm, or modify any or all of the proceedings appealed from, and may award costs to the prevailing party on the appeal. The judgment of the Superior Court on such appeal shall be final.

SEC. 28. First—The word "municipality" and the word "city" as used in this Act shall be so understood and construed as to include and are hereby declared to include all corporations heretofore organized and now existing, and those hereafter organized, for municipal purposes.

SEC 3. The election returns from each precinct shall be filed with the City Clerk, who shall immediately place the same in the vaults of the City Clerk's office, and no person shall be permitted to handle, inspect, examine, or in any manner interfere with the same until canvassed by the Common Council.

On the second day after a city election the Mayor and Common Council shall canvass said returns and declare the result. If two persons receive an equal number of votes for the same office, except the office of Mayor, the Common Council shall, by ordinance, select one of such persons to fill the office until the next general city election.

SEC. 5. The persons so appointed shall take office on the first Monday of July succeeding their appointment and shall become the legal members of said boards to which they were appointed, with all the powers and duties conferred or imposed by law or ordinance on such boards respectively.

When all appointments have been made, and the appointees have qualified, the Appointing Board shall become *functus officio*. The members of the respective boards above enumerated shall so classify themselves by lot that the terms of office of the members shall expire in the manner following, that is to say: one member of the Board of Free Public Library Trustees shall go out of office at the end of the first year, one at the end of the second, one at the end of the third, and two at the end of the fourth year from the date on which they took office.

As the terms of the members of the several boards shall expire, the Mayor shall fill the vacancies by appointment, and the appointees shall hold for four years.

SEC. 11. An office becomes vacant when the incumbent thereof dies, resigns, is adjudged insane, convicted of felony, or of an offense involving a violation of official duty, or is removed from office or ceases to be a resident of the city, or neglects to qualify by taking the oath of office and filing his official bond within the time prescribed by law or this charter, or shall absent himself from the city for more than fifteen days

Such estimate shall also show what amount of income and revenue will probably be collected from fines, licenses, and other sources of revenue, exclusive of taxes upon property, and what amount will probably be required to be levied and raised by taxation in order to meet the necessities of each specific fund for such fiscal year.

SEC. 2. The Mayor and Common Council shall have full power and authority to assess and levy and collect taxes upon all taxable property in the city; *provided*, the maximum rate of taxation shall not exceed in any one year \$1 upon each \$100 valuation of property assessed, exclusive of the amount necessary to pay the principal and interest on the bonded indebtedness of the city.

SEC. 3. The Mayor and Common Council on or before the first Monday of February, 1898, and annually thereafter while any valid law exists for the assessment and collection of city taxes by officers of the County of Santa Clara, shall pass an ordinance electing to avail the City of San José of the provisions of an Act entitled "An Act to provide for the levy and collection of taxes by and for the use of municipal corporations and cities incorporated under the laws of the State of California, except municipal corporations of the first class, and to provide for the consolidation and abolition of certain municipal offices, and to provide that their duties may be performed by certain officers of the county, and fixing the compensation to be allowed for such county officers for the service so rendered to such municipal corporations," approved March 27, 1895, and shall cause a certified copy of such ordinance to be filed with the Auditor of said County of Santa Clara. If said Act shall be amended, or some other law be substituted in its stead, providing for the assessment and collection of city taxes by county officers, the Mayor and Common Council shall conform to the provisions of such amended Act or such law, in order to avail the city of the privilege of having its taxes assessed and collected by such county officers.

Until an ordinance shall be passed as aforesaid to avail the city of the privilege of having its taxes assessed and collected by the officers of said county, the City Clerk shall be *ex officio* Assessor; the City Treasurer in office when this charter is adopted shall be *ex officio* Tax Collector until the expiration of his term for which he was elected; they shall perform respectively the duties and have all the powers prescribed by law or ordinance for Assessors and Tax Collectors. While the city avails itself of the privilege of having its taxes assessed and collected by the county officers, the offices

of City Assessor and City Tax Collector shall be abolished, but may be restored by ordinance when it becomes necessary or expedient so to do.

The taxes so levied and collected shall be apportioned by the Treasurer to the several specific funds.

SEC. 4. Subject to the provisions of Section 3 of this article, the Mayor and Common Council shall have power, and it is hereby made their duty, to provide by ordinances for the levying and collecting of all city taxes, and in so doing shall be governed by the State laws in reference to the levying and collecting of State and county taxes, as far as applicable, and all sales and conveyances of property made and executed for the non-payment of delinquent taxes shall have the same force and effect as when made and executed for the non-payment of delinquent taxes levied for State and county purposes. Said taxes so levied shall be a lien against the property assessed, and said lien shall attach as of the first Monday of March, at 12 m of each year.

SEC. 5. Whenever the Mayor and Common Council shall, by ordinance, determine that the public interest or necessity demands the acquisition, construction, or completion of any municipal improvement, the cost of which would be too great to be paid out of the ordinary annual income and revenue of the city, the Mayor and Common Council is hereby given the power and authority to call a special election and submit to the qualified voters of the city the proposition of incurring indebtedness to pay the cost of such improvement set forth in said ordinance. If said proposition be accepted by a two-thirds vote of the qualified electors voting at such election, the Mayor and Common Council may issue bonds of said city in evidence of said indebtedness; *provided*, that such indebtedness, together with the unpaid and outstanding bonded indebtedness actually existing at the time such proposition is submitted to said voters, shall not exceed five hundred thousand dollars.

## ARTICLE V.

### FINANCE.

#### *Chapter I—Limit to Expenditure.*

SECTION 1. It shall not be lawful for the Common Council, or any department of the city government having power to incur, authorize, or contract liabilities against the treasury, to incur, authorize, or contract any expenditure or demand against any of the specific funds in the treasury which, taken with all other expenditures, indebtedness, or liability made or incurred up to the time in the quarter of making or incurring the same, shall exceed one-fourth part of the money provided for such expenditure, indebtedness, or liability (actually collected and paid into the treasury) as and for the income and revenue for the fiscal year in which such liability, expense, or demand is incurred, and apportioned to the specific fund to be charged therewith.

SEC. 2. If at the end of any quarter any money remains unexpended in any of the specific funds, and which might lawfully have been expended during such quarter, such unexpended sum or sums, except so much thereof as may be requisite to pay all unpaid claims upon such specific fund that are outstanding, shall be carried forward in the same specific fund and expended by order of the Common Council, or of the department having the fund in charge, in any succeeding quarter of the same fiscal year, but not afterwards, except in payment of claims lawfully incurred during such fiscal year.

SEC. 3. All contracts, appropriations, allowances, payments, or liabilities to pay made in violation of the provisions of this chapter shall be absolutely void, and shall never be the foundation or basis of a claim against the treasury. All members of the Common Council and of each board and department of the city government are charged with notice of the condition of the treasury, and of the extent of the demand against the same, and any member violating the provisions of this chapter shall forfeit the office which he holds, unless he was not present when such liability was incurred, or if present, caused his dissent therefrom to be entered on the minutes at the time.

SEC. 4. In case of great calamity, casualty, or other unforeseen occurrence, by which the enforcement of the provisions of this chapter would be detrimental to the public interests, the Common Council, or any board or department of the city, by unanimous vote of the members constituting the Common Council or such board or department may, by resolution, specifying the reasons, suspend the operation of the provisions of this chapter for a period not exceeding three months; but such resolution shall have no effect unless the Mayor indorse his approval thereon.

SEC. 5. The operation of the provisions of this chapter requiring the revenue for the fiscal year to be actually paid into the treasury before any expenditure can be made or liability incurred against any specific fund shall be suspended if, at the beginning of the first fiscal year after the adoption of this charter, there shall not be sufficient money in said several funds, added to what would be available from other sources, to meet all legal demands against the treasury for the first five months of said fiscal year. In such case the Mayor and Common Council shall create a fund to be known as the cash-basis fund, for the purpose of putting the payment of the running expenses of the city government upon a cash basis, and to be used for no other purpose, and annually thereafter, until the purpose for which said fund was created has been accomplished, shall, at the time of levying other city taxes, levy not less than five cents on the one hundred dollars assessed valuation of property for such fund. This tax of five cents shall be within the one-dollar limit fixed by this charter in Section 2 of the article on revenue.

The money thus collected shall be allowed to accumulate in said fund until it shall be sufficient, together with the money already in said specific funds, to meet all legal demands against such funds for the first five months of the next succeeding fiscal year. At the beginning of said fiscal year the Mayor and Common Council shall direct the Treasurer to apportion, and the Treasurer shall apportion, the money in said fund to the several specific funds in like manner as other moneys are apportioned. When the money in said fund is so apportioned, said cash-basis fund shall be abolished, no further levy as provided in this section shall be made, and the said suspended provisions of this chapter shall thereafter become and continue in full force and effect.

#### *Chapter II—Payment of Claims.*

SECTION 1. Every claim and demand against the city, except bonds, coupons for interest, claims payable from the school fund, or from funds not controlled by the Mayor and Common Council, shall be verified and filed with the City Clerk, specifying in detail the goods furnished, the service performed, or other basis of the claim, and by what authority the goods were furnished or the service performed, giving date of the same, and the amount of the claim.

SEC. 2. After allowance by the Common Council, the City Clerk shall present such claim or demand to the Mayor, who, within five days thereafter, shall indorse thereon or annex thereto his approval or disapproval, and return it to the City Clerk. The Mayor may approve a claim in part, but where a claim is disapproved, in whole or in part, the reasons of the Mayor must be given in full. The Common Council, by the affirmative votes of four of its members, may allow a claim or such portion of a claim as the Mayor has disapproved, but not otherwise.

SEC. 3. Upon the allowance of any claim a warrant shall be drawn on the City Treasurer in favor of the person to whom the allowance was made, specifying for what the warrant is drawn, the fund out of which it is to be paid, and that it can be paid only from the money actually collected and in the fund. The warrant shall be signed by the Mayor and countersigned by the City Clerk.

SEC. 4. Every claim against funds in the city treasury which may have been incurred or authorized by the Board of Education, the Board of Police and Fire Commissioners, the Board of Health, the Board of Park Commissioners, or the Trustees of the Free Public Library, shall be verified and presented to the board incurring or authorizing the indebtedness, who shall approve or disapprove the claim. It shall require at least three members voting in the affirmative to approve any claim. The president and secretary of the board or commission must certify the fact of such allowance, together with the amount allowed, the date of allowance, the name of the person or persons to whom the allowance is made, and the nature of the claim, to the City Clerk, who shall present the same to the Mayor for his approval, and upon its being approved, the City Clerk shall draw a warrant on the City Treasurer on the proper fund in payment of the same, which warrant must be signed by the Mayor and countersigned by the City Clerk. If the Mayor, within five days after presentation to him of the certificate of allowance as aforesaid refuses to approve all or any portion of the claim so certified, or any item of a claim allowed, he must indorse his disapproval on the certificate and briefly give his reasons therefor.

He must also transmit to the board or commission allowing the claim a statement of the fact of his refusal to approve the claim or any portion thereof, and his reasons therefor. The claim or any portion thereof so disapproved can only be passed and ordered paid by the affirmative votes of four members of the board or commission from whom the authority for the claim was derived.

SEC. 5. To all claims there shall be attached, before filing, the affidavit of the claimant that the supplies or materials for which the charge is made have been furnished in quantity and quality, according to contract, and that the service has been rendered as ordered.

SEC. 6. No claim for commodities furnished or service performed shall be valid unless, prior to furnishing such commodities or the rendition of the service, authority for the same was given by the Common Council or some department of the city government having authority so to do.

No member of the Common Council or member of any department, and no city officer, shall have power to create any indebtedness against the city, or to furnish the basis of a claim, without said authority. A violation of this section shall be a misdemeanor.

No supplies, materials, or other item of expenditure for an amount exceeding \$100, shall be ordered or purchased by the Mayor and Common Council or any board or department of the city authorized to incur any expenditure, except after first advertising for sealed proposals, and awarding a contract to the lowest and best bidder. Each proposal must be accompanied by a certified check in an amount not less than ten per cent of the sum bid, which check must be forfeited to the city upon the failure of the person, firm, or corporation bidding to enter into the contract awarded. All contracts awarded by the Mayor and Common Council shall be by ordinance or resolution. A sufficient bond payable to the city, with two or more sureties, shall be required to secure a faithful performance of each contract awarded.

#### *Chapter III—Of the Several Funds.*

SECTION 1. The revenue paid into the treasury shall be at once apportioned by the Treasurer and be kept in separate specific funds as hereinafter provided, and it shall

not be lawful to transfer money from one fund to another, or use the same in payment of demands upon another specific fund, except temporarily in payment of the principal or interest of the present bonded indebtedness.

SEC. 2. The several interest and sinking funds in the treasury authorized by law at the time this charter takes effect shall continue therein so long as there shall be occasion therefor, and the moneys therein, or which may belong thereto, shall not be used or appropriated for any purpose other than that for which the same were raised.

The amount of money levied for grammar and primary schools shall be paid by the City Collector into the county treasury to the credit of the city school fund; to the park improvement fund all moneys accruing from rents of grounds, permits in the park, from public property under the control of the Park Commissioners, from the sale of articles from said parks, and moneys coming into said fund by donation or bequest; to the library fund all moneys accruing to said fund by donation or bequest; to the general fund, the moneys paid for fines or fees, for licenses, and all other moneys not directed to be paid into any other specific fund.

SEC. 4. Out of the school fund shall be paid all sums necessary for the purchase, rent, and improvement of school sites; for the rent, furnishing, construction, alteration, and repair of school buildings; for the discharge of incumbrances on school property, for the salaries and wages of teachers, officers, and employes connected with or employed in the school department, for supplying the schools with lights, fuel, water, apparatus, and necessary school appliances, and for such other expenses of the school department as are necessary for the maintenance and proper conduct of the schools of the city.

SEC. 6. Out of the street light fund shall be paid all sums authorized to be paid for lighting the streets and such public buildings, offices, and institutions as are not specially provided to be maintained out of some other specific fund.

SEC. 7. Out of the street fund shall be paid all sums authorized to be paid for repairing and improving streets, which shall have been accepted so as to become a charge upon said city; for cleaning streets, crossings, and sewers; for street sprinkling; for all street work in front of or assessable upon property owned by said city or any department thereof, or by the Government of the United States, for all repairs upon the public streets deemed of urgent necessity; for all work authorized by the Mayor and Common Council which may be necessary for public health, or which cannot be assessed upon private property; and for all other expenditures on the streets and highways deemed necessary by the Mayor and Common Council and authorized by any provision of this charter.

SEC. 8. Out of the sewer fund shall be paid all sums authorized to be paid for the construction and repair of such sewers or system of drainage as may be ordered by the Mayor and Common Council, and which is not chargeable upon private property.

SEC. 9. Out of the fire department fund shall be paid the salaries and wages of all officers, members, and employes of the fire department, the salaries and wages of the officers, members, and employes of the fire alarm and police telegraph service, and the salary of the secretary of the Board of Police and Fire Commissioners; all sums authorized to be paid for the purchase of all apparatus, appliances, and things of every nature and description necessary for the extinguishment of fires, and for the complete equipment, maintenance, and operation of the department.

SEC. 10. Out of the health department fund shall be paid the salaries of all officers and employes of the Board of Health, and any and all other salaries and expenses incurred in the administration of said health department, and not expressly provided to be paid out of some other fund.

SEC. 11. Out of the park improvement fund shall be paid all sums authorized to be paid for such materials, supplies, tools, machinery, appliances, labor, and service, as well as for seeds, plants, vines, shrubs, trees, animals, and museums, which the Park Commissioners may procure for preserving, improving, and beautifying the public grounds under the control of said commissioners.

SEC. 12. Out of the library fund shall be paid the salaries and wages of officers and employes of the public library and reading-rooms, the purchase of books, journals, and periodicals, and such supplies as may be used in the maintenance of said library and reading-rooms.

SEC. 13. Out of the general fund shall be paid all claims not provided to be paid out of any other specific fund.

SEC. 14. If the Mayor and Common Council appropriate money for any other purpose besides those enumerated in this chapter, it shall at once, when paid into the

treasury, be apportioned by the Treasurer and kept in a separate specific fund, which shall receive an appropriate designation, and out of said fund shall be paid only such demands as are properly chargeable thereto within the purposes of such appropriation.

SEC. 15. Any moneys remaining at the end of any fiscal year in any fund shall be carried forward to the same fund for the ensuing fiscal year.

SEC. 16. Any demand against the treasury, or against any fund thereof, remaining unpaid at the end of the fiscal year for lack of money in the treasury applicable to its payment, may be paid out of any money which may subsequently come into the proper fund from delinquent taxes, or other uncollected income or revenue for such year. Such demands shall be paid out of such delinquent revenue, when collected, in the order of their registration.

Fourth—To take especial charge of the system of underground street monuments and bench marks; reset them without delay if, by reason of street improvement, sewer work, or any other cause, they should be disturbed or permanently covered with concrete, bitumen, or otherwise, and to extend the system of underground street monuments as fast as the state of his work will permit, so as to cover all streets within the city limits.

Sixth—To give his exclusive time to the services of the city, and perform such other engineering duties as may be required of him by the Mayor and Common Council.

## ARTICLE VIII.

### PUBLIC WORKS.

#### *Chapter I—Improvement of Streets.*

SECTION 1. An Act of the Legislature of the State of California entitled "An Act to provide for work upon streets, lanes, alleys, courts, places, and sidewalks, and for the construction of sewers within municipalities," approved March 18, 1885, as since amended, and as hereafter shall be amended, is hereby adopted as a part of this charter, and shall have the same force and effect as if incorporated at length herein, except where the provisions of said Act conflict or are inconsistent with the provisions of this charter.

SEC. 2. When the estimated expense of any improvement being made under said Act exceeds two dollars per front foot along each line of the street proposed to be improved, the Superintendent of Streets, at the time of posting along the street the notices of the passage of the resolution of intention, shall cause to be deposited on the front doorstep of each dwelling fronting on the proposed improvement a copy of Part I of said Act.

SEC. 3. If the improvement is being made under the provisions of Section 13 of said Act, with the notice requiring the repair or reconstruction to be made, the Superintendent of Streets shall, in like manner, deposit a copy of Sections 13, 14, 15, 16, and 17 of said Act, and also a copy of any ordinance passed pursuant to Section 15 of said Act.

SEC. 4. If bonds are to be issued pursuant to an Act of the Legislature entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also for the payment of such bonds," approved February 27, 1893, and any assessment less in amount than \$50 remains unpaid for thirty days from the date of the warrant, or for five days after final decision on appeal, as provided in Section 11 of said Act, the Mayor and Common Council may, by resolution, order such assessment paid from the street contingent fund, and the Superintendent of Streets shall thereupon release said assessment on the books of his office as upon payment in other cases.

SEC. 5. At the beginning of each month the Superintendent of Streets shall file with the City Clerk a statement, verified by his oath, containing such items of expense of improvements made during the preceding month which could have been charged under the provisions of said Act as incidental expenses; said statement shall also show what amounts have been collected and what disposition has been made thereof. The City Clerk shall lay such statement before the Mayor, who shall carefully examine the same, and if he finds that the provisions of said Act in relation to the collection of incidental expenses have been observed, shall indorse his approval on said statement, and deposit it with the Clerk. The Mayor and Common Council shall not allow any claim for a service which could have been charged as incidental expenses under the provisions of said Act, except when the work is abandoned before letting a contract, or unless such service was ordered by the Mayor and Common Council before it was performed.

Mr. North offered the following, and asked it be printed in the Journal.

So ordered.

Resolution welcoming to the State of California the Societies of Christian Endeavor of the World, upon the occasion of their sixteenth annual international convention, to be held in the City of San Francisco, July 7 to 12, 1897.

WHEREAS, The sixteenth International Christian Endeavor convention is to be held in San Francisco, in this State, July 7th to 12th of this year; and

WHEREAS, The Society of Christian Endeavor is an organization embracing over forty-five thousand local societies, with an aggregate membership of over two and one half millions of persons located in the different countries of the world, but principally in the United States of America; and

WHEREAS, A large number of our citizens in public and private life have for a long time past been devoting much time, labor, and money to the end that the convention of 1897 might be secured to our State, and will continue to labor and expend their money and devote their time in order to assure to our visitors a cordial and hospitable welcome; and

WHEREAS, This society is an inter-denominational organization, which has for its object the development of the young in good morals, high character, and to fit them for laudable achievement; and

WHEREAS, It has come to our notice that at the conventions held in sister States within the past few years the attendance has reached as high as fifty thousand persons; and

WHEREAS, The railway associations of the United States have agreed upon rates for transportation to and from the State, on account of this convention of 1897, lower than were ever granted at any previous time, upon any account whatever, which rates of transportation are available to everybody, whether members of the societies or not, and such rates being upon terms that will allow reasonable time for all visitors on that

occasion to not only attend the convention, but also permit them to visit the innumerable points of interest in the State, and

WHEREAS, it is confidently believed by those who have charge of the affairs of the societies and the sessions of the convention that many thousands will visit our State by reason of the holding of the convention of 1897 in California; and

WHEREAS, it is the sense of the Legislature of the State of California that it is but meet and proper that the people of California should welcome to our beloved State the delegates to the convention of 1897, and their accompanying friends, and others drawn here upon this auspicious occasion, from which we must inevitably derive much benefit; therefore, be it

*Resolved by the Assembly of the State of California, the Senate concurring therein,* That the Legislature of the State of California, at its thirty-second session, beginning on the 4th day of January, 1897, does hereby extend to the Societies of Christian Endeavor of the World, and their friends, a cordial welcome to our State upon this the occasion of their sixteenth annual convention, better known throughout the world as "California 1897 Christian Endeavor Convention," and we assure them and their visiting companions that they will find in our people a deep and earnest interest in that moral culture which is elevating and helpful to humanity, and a disposition to aid and encourage those who have already devoted much time and labor to this cause.

While those who will come to California during July next are within our State, we hope they will not fail to visit the many points of interest for which the State is famous, and see for themselves what a goodly heritage is ours; and we especially call their attention to Anno Domini 1601, when the first Christian Endeavor work on the western coast was initiated; where, "twenty years before the pilgrims landed on Plymouth Rock, there was reflected a rude cross in the waters of the Bay of Monterey," which cross was erected by the Spanish padres. We also invite their attention to the early missions at Santa Barbara, Santa Clara, San Luis Obispo, and elsewhere; and to the more modern churches of every denomination in the cities, villages, and hamlets of the State. The material progress of our State from its earliest control by Americans we think is well illustrated by the respective State Capitol buildings—the first erected at Monterey in 1849; the next at San José, 1849-51; the next at Vallejo, 1852-53; the next at Benicia, 1853-54; the next at Sacramento, 1854; the next at Sacramento, 1855-69; then our present magnificent State building

In addition to this evidence of our prosperity, we are proud of the educational development of the State as shown by our great University at Berkeley, adjacent to Oakland and San Francisco, and of the numerous other educational institutions, at the head of which stands the Leland Stanford, Jr., University at Palo Alto, near San José; the State Normal School at Los Angeles, in the south; San José in the center, and Chico in the north, while on Mount Hamilton, near San José, will be found the great Lick Observatory, with its complete astronomical equipment; and thus throughout our State, from "Siskiyou to San Diego, and from the Sierras to the sea," will be found much to attract the eye and satisfy the fancy of those who love the wonderful and beautiful in nature.

In the great Sierra Nevada range will be found the richest gold mines of the world, while in the valleys and plains are located the agricultural, horticultural, and viticultural developments of the State, which are unsurpassed anywhere on the face of the globe

For remarkable topographical features, there will be found Mounts Lowe and Wilson, near Los Angeles; further north, the world-famed Yosemite Valley and Mount Whitney, while to the north is Mount Shasta, clad in perpetual snows. All of these are easy of access by rail, while, by our fourteen hundred miles of tide-water shore-line, the commerce of the world could be accommodated in a score of places from Del Norte in the northwest to San Diego in the southwest, with Eureka, San Francisco, Oakland, Monterey, Santa Cruz, San Luis Obispo, Santa Barbara, and Los Angeles between. By the inland waters of the State may be reached a hundred cities and towns of greater or less importance, notable among which are Stockton, Sacramento, Marysville, and Red Bluff, and by the same inland waters, and by rail, may be reached the great national navy yard at Mare Island, opposite Vallejo.

In the eastern central portion of the State will be found the location of Sutter's mill, where James W. Marshall discovered gold, from which discovery came the impelling forces which have so materially aided in the development of what is now this great State of California.

With all these and many other attractions for the gratification of the senses, in addition to the benefits to be derived from associations at the convention, it is the belief of the Legislature of the State of California that much good will come to those who will visit us during the convention days, and we feel assured that much benefit will be derived by our own people from the visit of those who will come to us in connection with this memorable occasion.

Therefore, again, we say to our expected guests, whether they stay with us be temporary or permanent, "Welcome, thrice welcome, to California."

JOINT RESOLUTION.

By Mr. Belshaw:

ASSEMBLY JOINT RESOLUTION No. 37.

WHEREAS, In the four last sessions of Congress the so-called Pacific Railroad refunding bills have been defeated by your honorable body, in spite of the powerful and unceasing pressure of the great railroad companies and a large portion of the press; and

WHEREAS, A new plan has lately been formulated, to substitute a so-called Commission Bill for the Funding Bill, under the plea that this would be acceptable to the people of the Pacific Coast; and

WHEREAS, This is an error, for the people of the Pacific Coast consider such a commission as most dangerous to their interests and welfare, and to the interests and welfare of the people of the whole United States. and

WHEREAS, The pursuit and collection of the hundreds of millions of dollars involved should not be left to a commission of a few persons, who are entirely occupied with most important federal duties, involving the welfare of this great nation, and who have not the time for such a necessarily protracted investigation, even if Congress granted them the powers and constituted the commission a special court of law; and

WHEREAS, This would be contrary to the provisions of the Constitution of the United States, which divides the powers of the government into the executive, the legislative, and the judiciary departments; and

WHEREAS, The collection of a debt comes clearly under the judiciary department, which has all the machinery for determining equities, searching for and seizing abstracted funds, and has the time needed for a thorough and extended investigation; and

WHEREAS, No reason can be adduced why Congress should set aside the wise provisions of the Constitution, made for the benefit of all the citizens of the nation, rich and poor alike, at the solicitation of wealthy corporations; therefore, be it

*Resolved by the Assembly of the State of California, the Senate concurring,* That for these reasons, and many others which will undoubtedly develop in a judicial examination, we, the Legislature of the State of California, respectfully pray that no action be taken by the United States Congress in regard to the debt owing by the Pacific Railroads, but that the laws of the land be allowed to take their natural course.

CONCURRENT RESOLUTION.

By Mr. North, of Alameda:

ASSEMBLY CONCURRENT RESOLUTION No. 9.

Resolution welcoming to the State of California the Societies of Christian Endeavor of the World, upon the occasion of their sixteenth annual international convention, to be held in the City of San Francisco, July 7 to 12, 1897.

WHEREAS, The sixteenth international Christian Endeavor convention is to be held in San Francisco, in this State, July 7th to 12th of this year; and

WHEREAS, The Society of Christian Endeavor is an organization embracing over forty-five thousand local societies, with an aggregate membership of over two and one half millions of persons, located in the different countries of the world, but principally in the United States of America; and

WHEREAS, A large number of our citizens in public and private life have for a long time past been devoting much time, labor, and money to the end that the convention of 1897 might be secured to our State, and will continue to labor and expend their money and devote their time in order to assure to our visitors a cordial and hospitable welcome; and

WHEREAS, This society is an inter-denominational organization, which has for its object the development of the young in good morals, high character, and to fit them for laudable achievement; and

WHEREAS, It has come to our notice that at the conventions held in sister States within the past few years, the attendance has reached as high as fifty thousand persons; and

WHEREAS, The railway associations of the United States have agreed upon rates for transportation to and from the State on account of this convention of 1897, lower than were ever granted at any previous time, upon any account whatever, which rates of transportation are available to everybody, whether members of the societies or not, and such rates being upon terms that will allow reasonable time for all visitors on that occasion to not only attend the convention, but also permit them to visit the innumerable points of interest in the State, and

WHEREAS, It is confidently believed by those who have charge of the affairs of the societies and sessions of the convention that many thousands will visit our State by reason of holding the convention of 1897 in California; and

WHEREAS, It is the sense of the Legislature of the State of California that it is but meet and proper that the people of California should welcome to our beloved State the delegates to the convention of 1897, and their accompanying friends, and others drawn here upon this auspicious occasion, from which we must inevitably derive much benefit; therefore, be it

*Resolved by the Assembly of the State of California, the Senate concurring therein,* That the Legislature of the State of California, at its thirty-second session, beginning on the 4th day of January, 1897, does hereby extend to the Societies of Christian Endeavor of the world, and their friends, a cordial welcome to our State upon this, the occasion of their sixteenth annual convention, better known throughout the world as "California 1897 Christian Endeavor Convention," and we assure them and their visiting companions that they will find in our people a deep and earnest interest in that moral culture which is elevating and helpful to humanity, and a disposition to aid and encourage those who have already devoted much time and labor to this cause

While those who will come to California during July next are within our State, we hope they will not fail to visit the many points of interest for which the State is famous, and see for themselves what a goodly heritage is ours; and we especially call their attention to Anno Domini 1601, when the first Christian Endeavor work on the western coast was initiated; where, "twenty years before the Pilgrims landed on Plymouth Rock, there was reflected a rude cross in the waters of the Bay of Monterey," which cross was erected by the Spanish padres. We also invite their attention to the early missions at Santa Barbara, Santa Clara, San Luis Obispo, and elsewhere, and to the more modern churches of every denomination in the cities, villages, and hamlets of the State. The material progress of our State from its earliest control by Americans, we think, is well illustrated by the respective State Capitol buildings—the first erected at Monterey in 1849; the next at San José, 1849-51; the next at Vallejo, 1852-53; the next at Benicia, 1853-54; the next at Sacramento, 1854; the next at Sacramento, 1855-1869; then our present magnificent State building.

In addition to this evidence of our prosperity, we are proud of the educational development of the State, as shown by our great university at Berkeley, adjacent to Oakland and San Francisco, and of the numerous other educational institutions, at the head of which stands the Leland Stanford, Jr., University at Palo Alto, near San José; the State Normal Schools, at Los Angeles in the south, San José in the center, and Chico in the north, while on Mount Hamilton, near San José, will be found the great Lick Observatory with its complete astronomical equipment; and thus throughout our State—from "Siskiyou to San Diego, and from the Sierras to the sea"—will be found much to attract the eye and satisfy the fancy of those who love the wonderful and beautiful in nature.

In the great Sierra Nevada range will be found the richest gold mines of the world, while in the valleys and plains are located the agricultural, horticultural, and viticultural developments of the State, which are unsurpassed anywhere on the face of the globe.

For remarkable topographical features, there will be found Mounts Lowe and Wilson, near Los Angeles; farther north, the world-famed Yosemite Valley and Mount Whitney, while to the north is Mount Shasta, clad in perpetual snow. All of these are easy of access by rail, while, by our fourteen hundred miles of tidewater shore-line, the commerce of the world could be accommodated in a score of places from Del Norte in the northwest to San Diego in the southwest, with Eureka, San Francisco, Oakland, Monterey, Santa Cruz, San Luis Obispo, Santa Barbara, and Los Angeles between. By the inland waters of the State may be reached a hundred cities and towns of greater or less importance, notable among which are Stockton, Sacramento, Marysville, and Red Bluff, and by the same inland waters and by rail may be reached the great national navy yard at Mare Island, opposite Vallejo.

In the eastern central portion of the State will be found the location of Sutter's mill, where James W. Marshall discovered gold, from which discovery came the impelling forces which have so materially aided in the development of what is now this great State of California.

With all these and many other attractions for the gratification of the senses, in addition to the benefits to be derived from associations at the convention, it is the belief of the Legislature of the State of California that much good will come to those who will visit us during the convention days, and we feel assured that much benefit will be derived by our own people from the visit of those who will come to us in connection with this memorable occasion.

Therefore, again we say to our expected guests, whether their stay with us be temporary or permanent, "Welcome, thrice welcome, to California."

Adopted.

PETITION.

So ordered.

SAN FRANCISCO, March 4, 1897.

*To the honorable members of the Assembly, California State Legislature, greeting.*

We, the undersigned bodies, business corporations, firms; and individuals learn with gratification that Assembly Bill No. 928, appropriating State funds in aid of making an exhibit of California products at the International Horticultural Exhibition to be held in the City and Port of Hamburg, Germany, has been by the Committee on Ways and Means reported back to the House with the recommendation that it do pass, and now respectfully and most earnestly ask that it may receive such other requisite and necessary favorable consideration and action at your hands as may enable it to become a law. Your attention is called to the shortness of time in which much is to be done, if it is done at all, and you, as constituting the State Government, and each of you as individuals, are most respectfully requested to act as promptly in the matter as circumstances will allow.

Gentlemen, we deem it to be a fact that you are aware of the great importance to the State of a worthy installation of an exhibit of California products at Hamburg; that the elements of experiment have no place in the project; that our cured prunes, peaches, apricots, and other fruits already have a sale in that distant market, that the entering wedge has been driven by private enterprise, and that an indefinite but assuredly large commerce is in sight, and which requires only a judicious fostering to be realized. You are aware, gentlemen, that Hamburg is the gateway through which is reached the densest and busiest of continental Europe's population, a people who appreciate and want what we have to offer, and who are able and willing to pay in order to obtain. These and many other truths having a direct bearing upon this matter are known to you and need no elaboration here. The bill is one, it is confidently believed, that will quickly and largely develop a permanent and important market.

Gentlemen, we submit that the bill is just and reasonable, and in consonance with good state policy. Its passage would meet with general satisfaction among the people, irrespective of party affiliations or political preferences. It would be looked upon as a wise legislative work that had for its object the encouragement of a great industry and the upbuilding of a great State. Time is the essence in this matter, and your petitioners most respectfully ask that your favorable action be given speedily.

And your petitioners will ever pray, etc.

(Signed:) The Chamber of Commerce of San Francisco, Hugh Craig, President; Manufacturers' and Producers' Association of California Julian Sonntag, President; California State Board of Trade, J. A. Filcher, Secretary; Merchants' Association, F. W. Dohrmann, President; Board of Trade of San Francisco, A. A. Watkins, President; San Francisco Produce Exchange, A. Gerberding, President; San Francisco Fruit Exchange, H. Bendel, President.

Mr. Emmons gave notice that on next legislative day he would move to reconsider the vote whereby Assembly Constitutional Amendment No. 26 was lost.

EXPLANATION OF VOTES.

By Mr. North, of Alameda:

This amendment received my vote two years ago. It has been defeated by the people. In a few years more I should be willing to submit it again, but I believe it is now too soon to do so. The Constitution of New York State requires twenty years to go by before a resubmission. That time seems too long, but four or six years is more nearly correct. In the meanwhile let the advocates of the cause educate the women, who really were the cause of its recent defeat.

By Mr. North, of Yolo:

By a large vote the people of California have declared against woman's suffrage. I am merely representing the people, hence my vote. There will come a time to resubmit the question, but that time is not the present.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }  
SACRAMENTO, March 10, 1897. {

*To the honorable Assembly of the State of California.*

GENTLEMEN: I return herewith Assembly Bill No. 273, without my approval, and with my objections thereto:

Acts which provide for the disqualification of a prejudiced or biased Judge are in operation in other States, and any proper legislation which will relieve a litigant from the necessity of having his case tried before a Judge who is biased or prejudiced against him, or who has a fixed opinion on the case, is desirable and praiseworthy. A statute having for its purpose such relief already exists as to Justices' Courts, but the fact of the limited jurisdiction of such courts, and the fact that a new trial on appeal can always be had in the Superior Court, make regulations which are beneficial in the limited territorial jurisdiction of Justices' Courts inexpedient and dangerous in Superior Courts.

A careful scrutiny of the terms of Assembly Bill No. 273 has led me to believe that in its present form it should not become law.

While decisions are numerous holding that the expression "when it appears" occurs in a law of this kind it is construed as requiring an allegation of facts, not opinions, conclusions, or hearsay, yet the provision contained in the bill "that he does believe," may modify these decisions to such extent that such belief may be sufficient to cause the disqualification of a Judge, which the introducer from his statement says was not his intention.

And the words "adjoining county" should read "another county."

It is not definite enough as to the affidavit upon which it is sought to disqualify the Judge. No provision is made for counter-affidavits. The time when the affidavit can be filed is not definitely fixed. It might be resorted to at so late a stage of the proceedings that great expense to litigants and inconvenience to witnesses, courts, and jurymen would result.

After conferring with the introducer of this bill—and other members—they concluded that a new bill could be passed, which would be free from the objections to which Assembly Bill No. 273 was open, and which would at the same time permit a litigant to legally object to a prejudiced and biased Judge. I understand that such a bill has since been introduced and passed by your honorable body, and is now pending before the Senate.

JAMES H. BUDD, Governor.

The question being, "Shall Assembly Bill No. 273 become a law, notwithstanding the objection of the Governor?"

By Mr. Wright:

I voted aye because I believe the State should pay its just obligations. The claims in some instances, I believe, are bad, but the Board of Examiners under the provisions of the bill have power of disapproving any claims, and I am content to leave with them the ultimate determination.

By Mr. Bridgford:

I vote for Assembly Bill No. 410 because I believe the State should pay its just obligations. Many of the claims are admittedly good. Some are admittedly bad. The

bill authorizes the State Board of Examiners to determine which are good and which are bad. Much of the appropriation, as I understand it, will not attach to this tax levy, for the reason that a large part of the money necessary has heretofore been raised and is now in the treasury, and the bill simply reappropriates it. The State Board of Examiners recommend the appropriation.

WHEREAS, Said joint resolution contained various proposed duties on fruits raised in this State which Congress was asked to impose as a protection from foreign competition, and

WHEREAS, The said proposed duties have been construed to be the maximum rates desired by the California fruit-producers, whereas in reality they are the minimum duties suggested, and are entirely inadequate to protect California producers from foreign competition in several of the kinds of fruit and fruit products named; therefore, be it

*Resolved*, That the proposed duty of one per cent per pound on Zante currants is inconsistent and unjust, and if adopted will be ruinous to raisin-growers in the State of California; that the foreign dried grapes, known to commerce as "Zante currants," come into direct competition with medium grades of California raisins of all descriptions, particularly with seedless varieties, and if admitted into this country on a duty of less than three cents per pound, will take the place of and supplant the domestic product; that the seedless descriptions of raisins comprise twenty per cent or more of all the raisins grown in this State, that the so-called Zante currant is a seedless grape, and should be so classified, and be made subject to the same duty as raisins and all dried grapes; and that under proper encouragement the raisin industry will largely and profitably increase, and that without such encouragement a very important industry will be destroyed. We therefore believe a duty of three cents per pound on raisins, Zante currants, Sultanas, and all other dried products of the grape should be adopted;

*Resolved*, That we believe a duty of not less than three and one half cents per pound should be fixed on prunes and dried plums, and that at a less rate this industry must languish, and the large sums of money invested in it become unprofitable, and thus lessen the opportunity for labor, when thousands of laborers are already without the opportunity of supporting themselves and their families;

*Resolved*, That our Senators be instructed and our Representatives in Congress be requested to urge that the fruit schedule in the new tariff law to be submitted to Congress, at its special session, shall contain a duty of not less than forty cents per cubic foot on oranges, lemons, and limes, laid at a uniform rate, regardless of the size of the package, and when in bulk should be not less than five dollars per thousand; and a duty of not less than fifty cents per cubic foot on shaddocks, grape-fruit, and pomelos, or twenty-five dollars per thousand when in bulk. On citric acid there should be a specific duty of fifteen cents per pound; seventy-five cents per pound on essential oils of oranges and lemons; five cents per pound on the finished product of candied oranges, and lemon peel and preserved citron; three cents per pound on citron of commerce, when in pickle or brine; and on concentrated lemon and lime juice, in proportion to the amount of citric acid it contains, at the rate of ten cents per pound;

*Resolved*, That these resolutions be printed and duly attested and a copy be forwarded to each member of the Ways and Means Committee of the House of Representatives, and to each Senator and Representative in Congress from the State of California, and that this resolution be forwarded by telegraph to Hon. George C. Perkins, United States Senator, at Washington, by the Secretary of the Senate.

MESSAGES FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }  
SACRAMENTO, March 13, 1897. }

*To the Assembly of the State of California*

I have the honor to inform your honorable body that I have approved Assembly Bill No. 65.

JAMES H. BUDD, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }  
SACRAMENTO, March 13, 1897. }

*To the honorable Assembly of the State of California*

GENTLEMEN I return herewith Assembly Bill No. 495 without my approval, and with my objections thereto.

At the last session of the Legislature two new sections, Nos. 492 and 493, were added to the Civil Code. These sections provided that the legislative or governing bodies of any county, city and county, or town might grant franchises for the construction of elevated or underground railroad tracks over, under, or across the streets or public highways of the county or municipality, upon such conditions as the legislative body saw fit to impose. But to this Act is added the important proviso "that before granting such franchise there shall be presented to such governing body a petition signed by the owners of a majority of the landed property, other than public property, on the line of said elevated portion applied for." In addition to this very material requirement, the above Act is a section of the Civil Code which becomes part of and is limited and controlled by the other provisions of that Code.

Bill No. 495 is a general statute, and is modeled so nearly upon the recently enacted Section 492 of the Civil Code that it might be construed to practically repeal that section, and to grant the very liberal powers enumerated in it, without the important and very necessary qualifications and conditions which the Civil Code requires and imposes.

The powers conferred upon local governing bodies by this bill are so very great that, in the total absence of any restrictions, it might lead to serious interference with the public rights or private property. The authority which it gives to grant franchises to construct "roads" for "horseless vehicles" might be construed to include street railroads or steam railroads.

The law relating to street railroads now requires that they shall be propelled only by electricity, cable or horse power; the road must be built as nearly as possible in the middle of the street, the width of the track is limited, the grantee must keep in repair certain portions of the street, a maximum rate of fare is fixed, and other important restrictions are imposed. This bill contains none of these important provisions, and, if enacted, would be the latest legislative expression on the subject, and might be construed to sanction the granting of a fifty-year franchise to operate a steam railroad on the most important street of the most important city of the State. An elevated railroad might be chartered to operate on Spring Street in Los Angeles or Market Street in San Francisco before the very windows of their greatest buildings, costing vast sums of money, the usefulness of which for the purposes for which they were built would be destroyed, and all this upon such "regulations, restrictions, and limitations" only as the governing body might provide.

But assuming that the only power that this Act would be construed to convey would be to authorize franchises for pathways upon the public streets, or elevated roads for bicycles, or similar vehicles, there should be some condition or restriction upon the exercise of this serious authority over the streets of the city or the property of the inhabitants. No petition of property-holders is demanded, nor is the consent of the persons before the front of whose houses the trestle or road is to run required. No proper provision is made for the sale of the franchise, the conditions upon which it shall be held, or by what acts, if any, forfeited. It might be granted as a mere gratuity to a company who would charge a toll for its use. Valuable property might thus be disgraced, its use by its owner possibly restricted, light excluded, quiet disturbed, and privacy invaded, and such owner would have no voice in the matter, nor is any provision made to compensate him for the damage he has suffered. So great a power should not be so freely granted, but should be surrounded by such safeguards as would amply protect the valuable interests which might be affected by its exercise.

JAMES H. BUDD, Governor.

Mr. North moved that the consideration of the Governor's veto message be made the special order for next Monday.

So ordered.

At two o'clock and thirty minutes p. m. the Speaker called Mr. Dibble to the chair.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }  
SACRAMENTO, March 15, 1897. }

*To the honorable the Legislature of the State of California:*

GENTLEMEN: On February 25th, by a vote of 29 to 1, Senate Bill No. 494 was passed by the Senate. On March 4th, upon its consideration by the Assembly, it was amended, and on March 8th, by a vote of 45 to 5, it passed that body, as amended. On March 9th, by a vote of 39 to 0, the Senate refused to concur in the Assembly amendments, and on March 11th, by a vote of 47 to 7, the Assembly receded therefrom. The bill was returned from the House to the Senate and ordered to enrollment. On March 12th what purported to be Senate Bill No. 494 was handed to the presiding officers and chief clerks of your two bodies as duly enrolled, and therefore was by them certified to me. The document certified to me, however, was not Senate Bill No. 494 as it passed, but contained provisions not contained in the true bill, and had it been approved as certified to me, the result would have been that the bill as passed would have been "killed."

This fact being brought to the attention of the proper officers, a second document, purporting to be the said Senate bill, was transmitted to this office, but not accepted, as it was found not to be the true bill, or the bill as passed. Later, Senate Bill No. 494, as it passed, was properly delivered to this office.

In view of these facts, and of certain communications which I transmit to you, I desire to recommend that your honorable bodies, under a suspension of the rules, pass a bill making it a felony, with the severest penalty, for any person to directly or indirectly write, telegraph, telephone, or in any manner approach one of the officials through whose hands a bill must pass, requesting that official to blockade that bill, or to use his position to kill the same, or to take any part for or against any measure before the Legislature. The Legislature itself, which passes all bills, is the proper body to which appeals should be made, and if appeals are permitted to be made to the clerks of said bodies, or persons who may control or be employed in the printing of bills, that a bill be blockaded or killed by them, methods may be introduced unknown to the laws for the defeating of measures after their passage.

It is now a felony to alter a bill; it should be a felony for any clerk or employé of your honorable bodies to lobby for a bill, or for any person to suggest that they in any manner take part in legislative proceedings, other than in the proper discharge of their duties.

Had the bill in question been delivered later in the session, or the blunder remained undiscovered, even the signature of the Governor would not have made law of the measure which your honorable bodies so almost unanimously passed. The change of a word or a phrase in the printing of a bill may, under our Constitution, blockade and kill it.

On March 3d, Mr. Henry French, of San José, telegraphed to the State Printer as follows

SAN JOSÉ, CAL., March 3, 1897.

*To A. J. JOHNSTON (personal), State Printer, Sacramento.*

Blockade Assembly Bill 688 and Senate Bill 494 until my letter reaches you

HENRY FRENCH.

On the same day he sent an identical telegram to Mr. Brandon, Chief Clerk of the Senate. Neither of these gentlemen, however, complied with his request or blockaded the bill. Thereafter Mr. Johnston, Superintendent of State Printing, received from Mr. French the following letter:

SAN JOSE, CAL., March 5, 1897.

A. J. JOHNSTON, *State Printer, Sacramento, California.*

MY DEAR SIR: I want to write you a line in strict confidence, and ask your assistance in killing Budd's pet bill before the Legislature, Assembly Bill 688 and Senate Bill 494. I am just in receipt of a letter from Varcoe, the Enrolling Clerk of the Assembly, who assures me I can count on your cheerful cooperation. You will probably remember me as one of the war horses that left my business and spent a week in Sacramento, at my own expense, in the last Legislature, to kill No. 526, and did not return home until the flowers withered from the funeral ceremonies.

You will perceive that Assembly Bill 688 and Senate Bill 494 are identical, and the hope is if the one is killed the other will go through.

I know you have sufficient confidence in my integrity and loyalty to the taxpayers of this State to know that if I was not thoroughly confident of their vicious nature that I would be engaged in securing their passage instead of their defeat. I know you are in a position to kill these bills, and I am backed by influential friends of yours in asking you to do so, and if you ever want anything from Santa Clara County, kindly communicate with,

Yours respectfully,

(Signed:) HENRY FRENCH.

See Frank Brandon—I think he will do anything he can confidentially.

Mr. Frank Brandon, Chief Clerk of the Senate, received from Mr. French the following letter:

Mr. FRANK BRANDON, *Chief Clerk of the Senate, State Capitol, Sacramento.*

MY DEAR FRIEND: I want to write you in strict confidence, and invoke your assistance in killing Assembly Bill 688 and Senate Bill 494. I have just discovered a rotten scheme that lies behind these bills, and I am thoroughly confident that S. T. Black and the three principals of the three Normal Schools are working in hand, with the Governor's approval. The details I will give you in full the first time we meet. But I know you have sufficient confidence in my integrity to know that these bills, while innocent on the surface, are vicious legislation, and the highest and best interests of the State Normal Schools demand their extermination.

Now, I don't expect you to jeopardize anything by making an open fight, but I know you are in a position to kill them, if you want to.

Count on me as your sincere friend, always.

Very respectfully,

(Signed:) HENRY FRENCH.

Confer with State Printer Johnston—can't trust Black.

The letter to Mr. Johnston contained the language "I know you are in a position to kill these bills," and "See Frank Brandon. I think he will do anything he can confidentially," and the letter to Mr. Brandon the words "Now, I don't expect you to jeopardize anything by making an open fight, but I know you are in a position to kill them, if you want to," and the fact appears from his letter to Mr. Johnston that he was in correspondence on the same subject with Mr. John Varcoe, the Enrolling Clerk of the Assembly.

The State Printer was in no manner to blame for the changes in Bill 494 that would have "killed" it, nor was Mr. Brandon. The fact remains, however, that the bill was twice so dealt with after it had properly passed, and that it contained matters therein inserted which would most effectually have killed it, had the error not been discovered.

The danger of the defeat of deserving measures during the closing days of the session would be so very easy by such methods that every safeguard should be thrown around them. The heaviest penalties should be attached to any secret confidential request made of the officers handling them to interest themselves in any manner whatever in their defeat.

JAMES H. BUDD, Governor.

#### RESOLUTION.

By Mr. Price:

*Resolved*, That a special committee of three be appointed by the Speaker to fully investigate the matter referred to by the Governor in a message received by this House on this date, in so far as it relates to employes or officers of the Assembly, and if the fault lies with any person or persons under the control of this Assembly, that the party or parties who may be implicated be dealt with as the law may direct.

ASSEMBLY CHAMBER, SACRAMENTO, March 15, 1897.

MR. SPEAKER: Your Committee on Judiciary, to whom was referred Senate Bill No. 425—An Act to amend Section 671 of the Code of Civil Procedure of the State of Cali-

fornia, relating to judgment liens—have had the same under consideration, and respectfully report the same back, and recommend that it do not pass.

WAYMIRE, Chairman.

Senate Bill No. 425 placed on file for second reading.

Also:

ASSEMBLY CHAMBER, SACRAMENTO, March 15, 1897

MR. SPEAKER: Your Committee on Judiciary, to whom was referred Assembly Bills Nos. 301, 333, 397, 428, 481, 530, 599, 630, 658, 676, 678, 689, 690, 701, 702, 704, 708, 749, 752, 753, 754, 755, 758, 759, 772, 782, 788, 800, 871, 881, 890, 919, 920, 929, 940, 941, 944, 963, and 965—have had the same under consideration, and respectfully report that it will take no further action concerning the above bills, unless especially ordered by the Assembly as to any particular bill. The reason the committee so report is that to report the bills back and have them placed upon the file would entail a considerable expense for printing, which, in view of the close of the session now so near at hand, seems to the committee to be unnecessary.

Also: Senate Bill No. 293—An Act to repeal an Act entitled "An Act to create and establish a commission for revising, systematizing, and reforming the laws of this State, and for the appointment of the members of said commission, to be known as 'The Commissioners for the Revision and Reform of the Law,'" approved March 28, 1895—have had the same under consideration, and respectfully report that the same was referred to a sub-committee, whose report thereon has been adopted by your Judiciary Committee, and is annexed hereto.

SUB-COMMITTEE REPORT.

MR. CHAIRMAN: Your sub-committee, to which was referred S. B. 293, repealing the Act creating the Code Commission, respectfully report that at the time this commission was created great necessity existed for it, and without making any comment upon the gentlemen at present holding office under this Act, we will say that work has been accomplished by this commission which, if enacted into law, would have been of great value to the State. Many reforms were proposed which would have simplified our procedure and resulted in great economy. The work upon the Penal Code is very full and practically complete. The amendments proposed to the laws governing new trials and appeals would have been most desirable. The school laws, the military laws, the road laws, the election laws, and the laws relating to the State Printer, and the laws governing the foreclosure of titles to State lands, constitute a considerable work, and one which would have been of great value to the State, if adopted.

The work of the commission is incomplete, and now while the work is in progress it should be finished, or the money already spent would be lost. Much valuable data is now in the possession of the committee, which was collected at great expense, and would be lost by discontinuing the body at this time. This valuable data can be utilized now by such commissioners as may be chosen to succeed the present body, whose terms will very shortly expire.

In view of the unfinished condition of the work, and of the present pressing necessity for its performance, we deem it unwise to repeal this law. We deem it in the interests of economy and good government that you report the bill back to the Assembly with the recommendation that it do not pass.

REPORT OF SELECT COMMITTEE.

MAJORITY REPORT.

MR. SPEAKER: Your select committee, to whom was referred Assembly Bill No. 936—An Act to provide for the levy and collection of an income tax—have the honor to report that they have had the said measure under investigation, and now return the same to the House, with the recommendation that no action be taken on the said bill during the present session.

In making this recommendation we are not influenced by opposition to the principles involved in the bill, but by the circumstance that the bill has been brought into the House at so late a day in the session as to preclude the possibility of that careful consideration which so important a measure demands.

While it is undoubtedly correct, as contended by the author of the bill, that the Constitution authorizes the levy of an income tax upon corporations and individuals, or upon either of said classes, still it should be remembered that no attempt has heretofore been made in this State to adopt that method of taxation.

All experience in such fiscal legislation goes to show the necessity of using the utmost care in framing such laws, in order that there may be no injustice in imposing the tax, and in order to reach all persons affected. In the very nature of things, this cannot be done in the rush of the last hours of a legislative session of sixty days.

The existing system of taxation in California is already complicated beyond expression. It is characterized by vicious inequalities and by incomparable absurdities. To emphasize these assertions it is only necessary to point to the fact that no less than twenty-seven constitutional amendments have been proposed during the session in respect to revenue and taxation, not to speak of scores of bills that will die upon the files or in committees.

What is needed, in the opinion of your committee, is a careful investigation and thorough consideration of the subject. To that end your select committee submit the following resolution:

Resolved, That Assembly Bill No. 936—An Act to provide for the levy and collection of an income tax—be recommitted to the select committee heretofore appointed, and that said committee be authorized and empowered to further consider said bill, and incidentally to inquire into the methods of taxation in vogue in other States and in other countries, and into the effect of such systems of taxation upon industrial conditions.

Said committee shall report their conclusions to the Governor, who shall lay the same before the Legislature at the next session. The work of said committee shall be at no expense to the State, except that said report may be printed by the State Printer, if so ordered by the Governor.

CUTTER  
DIBBLE.

MINORITY REPORT.

MR. SPEAKER: The minority of your select committee, to whom was referred Assembly Bill No 936—An Act to provide for the levy and collection of an income tax—dissents from the majority report, and recommends that said bill be placed on its final passage.

The principle of the bill being admitted as good by the majority of your committee, the only question left is the details of the measure.

The only objection which has been raised to the details of the bill has come, not from your honorable body, but from a newspaper, which says that while the bill reads to tax gains, profits, and incomes, and the intention of the bill is to tax net incomes, still it might be made to read with more certainty in that respect. By adding the provisions of the Virginia statute, which provide for the deduction of costs of operations, repairs, and interest on indebtedness from the gross income, this remote objection would be obviated.

No further time is needed to consider this matter. For eighteen years we have been expressly authorized under the Constitution (see Section 2, Article XIII of the Constitution) by legislative enactment to provide for the assessment and collection of income taxes from persons, corporations, and joint-stock associations or companies resident in or doing business in this State, or any one or more of them, in such cases and amounts and in such manner as shall be prescribed by law.

From the foregoing it will be seen that all necessary power is conferred on the Legislature to impose such a tax. The only questions left are the need and method.

The need is shown when we face the requirement of raising twelve million dollars for the support of the State government for the ensuing two fiscal years. Under the existing system nearly all of this will come from persons who have no net income whatever, and who are in hard stress under present conditions to pay operating expenses, costs of repairs, interest, and the bare cost of living. Any remedy which will require wealth to pay its just proportion to the support of the government of the State will be acceptable to the people, anything that will alleviate the burden of taxation will be hailed as a step in the right direction.

While the bill under consideration would bring one and one half million dollars, at least, of revenue to the State from corporations, etc., who hardly feel taxation under present methods, it is so light a tax for State purposes as to be considered only a step in placing the burden of taxation where it should rest—that is, on those who are able to pay. It will be remembered that the Wilson bill (declared unconstitutional by the Supreme Court of the United States, in violation of the precedents of one hundred years) imposed a federal tax of two per centum on all incomes over four thousand dollars per year. One possible advantage has resulted from that decision, which is, that a tax which James G. Blaine held, in his "Twenty Years in Congress," to be a proper and efficient tax, has been expressly relegated to the several States of the Union.

No committee or commission is needed to further consider this question. What the people need is relief—not two years from now, but now. We have the embodiment of the work of the Massachusetts commission and commissions of other States as consummated in legislation of those States. We have the advantage of perfected work upon a simple question to make our beginning.

As an illustration of the simplicity of the tax proposed under the bill (No 936), the minority of your committee calls attention to the fact that the bill provides that a net income shall be taxed as personal property, in line with the Massachusetts statute, which taxes incomes as it would any form of personal property.

Finally, the minority calls attention to the thoughtful message of Governor Budd, asking this Legislature to impose such a tax for the relief of the people, and calling attention to the fact that property of corporations is often of that intangible nature that it cannot be reached except by means of an income tax. This suggestion should be heeded and followed rather than the present system, which operates in practice by "taking from him who hath not, and giving to him who hath."

Respectfully submitted.

SHANAHAN.

#### REPORT OF COMMITTEE ON INVESTIGATION OF THE EXAMINER.

MR. SPEAKER: Your committee appointed to investigate the charges of bribery made by the Examiner, of San Francisco, against members of the Assembly, beg leave to submit the following report:

The committee met Tuesday, March 2d, at two o'clock and fifteen minutes P. M., and organized by electing Mr. Belshaw Chairman. Mr. Garrett McEnerny appeared as counsel for the Examiner, and at his request the committee adjourned to Thursday, March 4th, at two o'clock P. M. Since that time the labors of the committee have been incessant up to the present time. We have examined under oath over one hundred witnesses, including every member of the Assembly. The investigation has been most thorough, but the committee has been unable to find the slightest evidence to substantiate the charges made by the Examiner. Your committee invited the Examiner people to assist in the investigation, but they, acting under the advice of their attorneys, positively refused to divulge the information, if any they had, upon which the charges were made; and the committee was forced to proceed with the investigation as best it could, without the information which the Examiner claimed to have, but refused to disclose. With the exception of three or four witnesses, we have been unable to even bring out rumors relative to the matter, and we were absolutely unable to trace these rumors to any authoritative source. Therefore, your committee is unanimously of the opinion that the article printed in the Examiner of February 27, 1897, headed "Bribery in Aid of Thievery," was based entirely upon rumors, and not upon facts, and we believe that every member of the Assembly is innocent of the offense charged. While we believe that it is the province of every newspaper to make public all manner of corrupt actions by public men, we further believe that it should ascertain for a certainty the facts of the case, and not blacken the reputation of any man or body of men upon idle rumors.

In case two or more parties nominate the same candidate or candidates for any or all offices to be voted for, they shall each be equally entitled to have their nominations printed in full in a separate column or columns. The party which first files its nominations with the Secretary of State shall have the column or columns on the extreme left of the ballot, the party which files its nominations next in order of time shall be next, and so on until the political parties have all been placed, when a column or columns shall be assigned upon their right for the names of persons who have been nominated by petition. At the head of the columns in which the groups of candidates for Presidential Electors of the different parties are printed shall be printed the following direction to voters: "To vote for Electors, mark a cross in the square at the right of the party name." Immediately following this shall be printed the title of their office, and a direction to mark once, as, "Electors of President and Vice-President—mark once." At the

end of the group of Presidential Electors, and of the blank spaces following them, shall be printed the following direction to voters: "To vote for a person, stamp cross (X) in a square at right of name of political party or designation following his name" If the names of candidates of that party extend over to the next column, this direction shall be repeated at the head of such column. Each name or group of names of candidates of any party for any one office, except Presidential Electors, provision for which has hereinbefore been made, shall be immediately preceded by the title of the office, at the extreme left of the column, followed on the extreme right of the column by a direction to the voter specifying the number of persons to be voted for for that office, thus: "Governor—vote for one"

Where proposed amendments to the Constitution or other questions are to be voted upon the statement and description thereof shall be printed upon the ballot in manner and form as provided for in Section 1054 of this Code, opposite which shall be printed the words "Yes" and "No," on separate lines. Such proposed amendments or other question to be voted upon shall be placed in the column at the extreme right of the ticket, and at the head of this column shall be printed the following directions to voters: "To vote on the following questions stamp a cross (X) in the square at the right of 'Yes' or 'No' in each case." All municipal tickets containing the names of candidates for ward or district offices, in addition to such direction to voters, shall have the number of the ward or district in which such ticket is to be voted printed thereon. All municipal tickets shall be printed upon paper of a different tint from that of the general ticket. On each ballot a perforated line shall extend from top to bottom, one half inch from the right-hand side of such ballot, and upon the half-inch strip thus formed there shall be no printing, except the number of the ballot, which shall be upon the back of such strip, in such position that it shall appear upon the outside when such ballot is folded. The number of each ballot shall be the same as that on the corresponding stub, and the ballots and stubs shall be numbered consecutively in each county. All ballots shall be eighteen inches in length, and each column shall be four and one half inches in width, and there shall be as many columns as are necessary under the provisions of this section. The columns shall be separated by heavy ruled lines, and on all ballots the names of candidates shall each be separated by a rule extending to the extreme right of the column, and each group of names of candidates for any office shall be separated, by a heavy ruled line extending to the extreme right of the column, from the names of the candidates for the next and succeeding office printed upon the ticket.

All ballots shall be printed in plain roman type, and shall contain the name of every candidate whose nomination for any office specified in the ballot has been certified to and filed according to the provisions of this Code, and no other name; and there shall be added to all the names of candidates for each office, where such officer is to be elected from a section or district comprising more than one county, the name of the county from which he was nominated, followed by their party or political designation or designations, so far to the right of the column as possible, leaving room for the square or space hereinafter provided for, as

MESSAGES FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, {  
SACRAMENTO, March 17, 1897. }

*To the honorable Assembly of the State of California:*

GENTLEMEN: I return herewith Assembly Bill No. 847 without my approval, and with my objections thereto:

I have long contemplated and desired the removal of the female inmates of the Whittier State School to a separate institution where they could be cared for by a separate management and under conditions favorable to their intellectual training and moral reformation. It was my desire that they might be so placed that they would be free from associations with detrimental influences, and where they would not be brought in contact with any society which they might contaminate.

Shortly after the meeting of the Legislature, Santa Clara, through her representatives and citizens, proposed the plan expressed in the bill under discussion. In company with a committee of the Legislature, I met many of the people of Santa Clara, and inspected the site of the proposed Santa Clara State School. At that time there was a sentiment of universal approval of the plan of locating the school at that place. In consideration of the desire of the legislative representatives of Santa Clara County, and the then evident desire of the citizens of Santa Clara, as evidenced to us upon the occasion of our visit, the Legislature passed the above bill.

After the bill had been considered by both houses, and shortly before its final passage, protests against its enactment began to reach me, and since it has been before me for consideration a strong opposition to it has been expressed to me by mail, by telegraph, and by personal appeal. This opposition comes from the homes of Santa Clara, from the mothers of that quiet city, and from schools located there. The opposition comes from all classes.

When this bill was proposed, it was understood that it was at the practically unanimous wish of the people of Santa Clara, and I therefore gave a partial, though reluctant, approval, as the only then solution possible of this problem. Recent developments show that the community is divided in its sentiment, and that a very strong opposition exists to the location of the school in Santa Clara.

It makes no difference what the cause of the opposition may be, it exists. In my judgment, to force a public institution upon a section so bitterly divided as to its desirability would be most unwise, and could result in no benefit either to the inmates or the locality.

JAMES H. BUDD, Governor.

The question being, "Shall the bill become a law notwithstanding the Governor's objection?"

Mr. Mead moved to indefinitely postpone action on the Governor's veto of Assembly Bill No. 847.

So ordered.

SEC. 11. Section fifteen hundred and six of the Political Code of California is hereby repealed.

On March 4th, the Assembly adopted the following amendments: Amend by striking out of Section 1, line 19, the words "ninety-seven," and inserting "ninety-nine"

Also, by striking out of Section 2, lines 18 and 19, the words "upon their nomination by the president."

On March 8th, the bill as thus amended passed the Assembly, and the same was duly transmitted to the Senate with the amendments attached, bearing the Assembly stamp "Adopted March 4, 1897, S J Duckworth, Chief Clerk."

The Senate refused to concur in the Assembly amendments, and on March 10th the Assembly receded from the same, and the bill was again transmitted to the Senate.

On March 11th, the bill was ordered to enrollment by the Senate, and was on March 12th reported by the officers of the Senate correctly enrolled. The bill, as reported enrolled, was transmitted to the Governor. After receipt by the Governor, it was discovered that the enrolled copy contained the amendments adopted by the Assembly, and which were subsequently receded from.

Upon a second enrollment, the first above-mentioned Assembly amendment was properly omitted from the bill, but the second-mentioned amendment was again improperly contained therein.

These amendments, which were thus improperly omitted in the bill as enrolled, are the same matters referred to in the Governor's special message of March 15th.

The letters and telegrams referred to in the Governor's message as coming from one Henry French, then trustee of the Normal School at San José, we had correctly set forth in said message.

We endeavored to reach Henry French, by subpoena duly issued, commanding his presence before your committee, but we were unable to secure his attendance until a late hour on March 18, 1897.

While Mr. French emphatically denies any improper intention to unduly "block" legislation on Senate Bill No. 494, and ascribes but the purest of motives in his desire to secure good legislation in its defeat, and while such may have been the case, yet, to prevent any future attempt, we recommend that legislative enactment by forthwith adopting measures to adequately punish any unseemly interference with legislative proceedings.

We are amply justified in reporting to you our conclusion that the errors which crept into the enrolled bill are not due to any act of any officer of the Assembly, and particularly as to John Varcoe, Enrolling Clerk of the Assembly, who was mentioned in the Governor's message, and, upon investigation, found that he did not even handle the said Senate Bill No. 494, and was in no way connected therewith.

Finding that the errors occurred in the Senate, we have not felt authorized to pursue them to an ultimate conclusion. We merely state, however, that the Enrolling Clerk of the Senate claims that the errors were due to the fact that the amendments were attached to the bill, with nothing on their face to indicate that they had been receded from. This is true. The history of the bill, as contained on the cover, shows that the amendments had been receded from. We report the above facts, not as intimating any conclusion of ours, for it is not within our province, but simply as circumstances under which it is claimed the errors were made. We recommend, in this respect, that hereafter whenever an amendment is receded from, it be so stamped upon its face.

Respectfully submitted.

SENATE CONSTITUTIONAL AMENDMENT No. 10.

A resolution proposing to the people of the State of California an amendment to the Constitution of the State, by adding a new section, to be known and designated as Section 7½, Article XI thereof, providing for the framing, by the inhabitants of counties, of local county government acts for their own government.

The Legislature of the State of California, at its thirty-second session, commencing on the fourth day of January, Anno Domini one thousand eight hundred and ninety-seven, two thirds of all the members elected to each house of said Legislature voting in favor thereof, hereby proposes that a new section be added to the Constitution of the State of California, to be known and designated as section seven and one half, article eleven thereof, as follows:

Section 7½. The inhabitants of any county may frame a county government act for their own government, relating to the matters hereinafter specified, and consistent with and subject to, the Constitution and laws of this State, by causing a board of fifteen freeholders who have been for at least five years qualified electors of such county, to be elected by the qualified electors of such county, at any general or special election, whose duty it shall be, within ninety days after such election, to prepare and propose a county government act for such county, which shall be signed in duplicate by the members of such board, or a majority of them, and returned, one copy thereof to the Board of Supervisors or other legislative body of such county, and the other copy to be sent to the recorder of deeds of the county. Such proposed county government act shall then be published in two papers of general circulation in such county, or if there be not two such papers, then in one only, for at least twenty days; and within not less than thirty days after such publication it shall be submitted to the qualified electors of such county, at a general or special election, and if a majority of such qualified electors voting thereon shall ratify the same, it shall thereafter be submitted to the Legislature for its rejection or approval, as a whole, without power of alteration or amendment and if approved by a majority of the members elected to each house, it shall be the county government act of such county, and shall in such case become the organic law thereof and supersede any existing county government act, and all amendments thereof, and all special laws inconsistent with such county government act.

A copy of such county government act, certified by the president of the Board of Supervisors, or other legislative body of such county, and authenticated by the seal by such county, setting forth the submission of such county government act to the electors, and its ratification by them, shall be made in duplicate and deposited, one in the office of the Secretary of State, the other, after being recorded in the office of the recorder of deeds in the county, among the archives of the county.

All courts shall take judicial notice thereof. The county government act so ratified may be amended, at intervals of not less than two years, by proposals therefor, submitted by the legislative authority of the county to the qualified electors thereof, at a general or special election held at least forty days after the publication of such proposals for twenty days in a newspaper of general circulation in such county, and ratified by at least three fifths of the qualified electors voting thereon, and approved by the Legislature as herein provided for the approval of the county government act. In submitting any such county government act, any alternative article or proposition may be presented for the choice of the voters, and may be voted on separately without prejudice to others.

It shall be competent in all county government acts framed under the authority given by this section, to provide for the manner in which, the times at which, and the terms for which the several township and county officers, other than Judges of the Superior Court, shall be elected or appointed; for their compensation; for the number of such officers; for the consolidation or segregation of offices; for the number of deputies that each officer shall have, and for the compensation payable to each of such deputies; for the manner in which, the times in which, and the terms for which the members of all boards of election shall be elected or appointed, and for the constitution, regulation, compensation, and government of such boards, and of their clerks and attaches; also, to prescribe the manner and method by which all elections by the people shall be conducted; and may in addition determine the tests and conditions upon which electors, political parties, and organizations may participate in any primary election.

Whenever any county has, in the manner and method herein pointed out, adopted any county government act, and the same shall have been approved by the Legislature as aforesaid, the directions of sections four and five of this article, providing for the uniformity of a system of county governments throughout the State, and likewise providing for the election and appointment of officers, and the regulation of their compensation, shall not apply. Said county government act shall, as to any of the matters hereinabove provided for and declared by such county government act, not be subject to any law or amendment enacted by the Legislature, except by amendment first submitted to the electors and ratified in the manner hereinabove set forth.

The question being on the adoption of Senate Constitutional Amendment No. 10.

REPORT OF COMMITTEE ON COMMISSIONS, RETRENCHMENT, AND PUBLIC EXPENDITURES.

ASSEMBLY CHAMBER, SACRAMENTO, March 20, 1897.

MR. SPEAKER: Your Committee on Commissions, Retrenchment, and Public Expenditures, to whom was referred, by you, on March 15, 1897, an investigation of the rumors of bribery published in the daily papers in connection with the passage of Assembly Bill No. 410, beg leave to make this report on the subject as investigated up to date.

In addition to the standing powers of this committee, this additional resolution, offered March 16, 1897, by J. W. Power, was adopted by the Assembly:

"WHEREAS, A committee was appointed for the purpose of investigating into charges made against J. W. Power in the 'Examiner' of March 13th; therefore, be it

"Resolved, That said committee be given full power to administer oaths, to subpoena witnesses, and such other powers as may be necessary for a full and complete investigation."

Pursuant to these instructions, your committee began its investigation on March 16th, and has pushed it with what vigor time would permit in these closing days of the session. We subpoenaed the Assemblymen who changed their votes during the call of the House on March 11, 1897, during the passage of Assembly Bill No. 410, commonly known as the coyote claims bill, and they gave their reasons for their change of votes. From this testimony we gleaned no substantial evidence of bribery.

W. A. Ryan, reporter of the "San Francisco Chronicle," and Ed Moran, of "The Examiner," were called, but testified to nothing conclusive in the matter. George McCalvey also testified, but gave no direct evidence incriminating anybody.

H. L. Packard was ordered subpoenaed, but up to date the Sergeant-at-Arms has not been able to get service on him, as he is reported to be out of the State.

On March 19th George Senf, manager of the Western Union Telegraph Company in Sacramento, was subpoenaed. He refused to answer certain questions. Taken before the bar of the House, he partially answered the questions, and was remanded to this committee. Before this committee he refused to answer other questions, and has not yet done so. In his testimony, Mr. Senf testified that all telegrams sent from Sacramento since March 5th had been shipped to Superintendent Jaynes by Wells-Fargo Express.

We then subpoenaed Felix Tracy, manager of the Wells-Fargo Express in Sacramento, who gave your committee the information that this box of telegrams had been expressed to F. Jaynes, Reno, Nevada, by the 11:40 train, March 19th.

Your committee immediately telegraphed C. W. Long, Constable at Truckee, to take this box from Wells-Fargo's messenger on arrival of train. On service of this subpoena said box of telegrams was returned to Sacramento in charge of Wells, Fargo & Co.'s Express. Your committee directed Constable Long to accompany the box on the train, which arrived in Sacramento at 6:20 A. M. to-day.

Your committee, pursuant to a resolution adopted by the Assembly last night, met at the Southern Pacific depot and took possession of said box of telegrams, your Chairman signing for said box on Wells, Fargo & Co.'s books at the depot.

Immediately on gaining possession of said box of telegrams, your committee proceeded to its regular committee-room, No. 72, of this Capitol, opened said box and looked over all telegrams contained therein.

From all the telegrams, your committee took out fourteen telegrams, which we believe have a very direct bearing on the investigation of bribery in connection with the passage of Assembly Bill No. 410. Except these fourteen telegrams, all others were replaced in the box carefully, and, by advice of the Attorney-General, were delivered to Superintendent Jaynes, of the Western Union Telegraph Company, in person.

The fourteen telegrams which your committee believe have a direct bearing on the charges of bribery, are herewith appended as a part of this report. Your committee is not able to do more in the short time allotted to it. From these telegrams we believe money was used in connection with passage of said bill, and we herewith submit the above facts for the consideration of the Assembly, for whatever action it desires to take.

MELICK, Chairman.  
ANDERSON.  
BURNETT.

NOTIONS.

Mr. Wright moved that all the telegrams in reference to Assembly Bill No. 410, accompanying the report of the committee, be now read.

Mr. Cross moved to amend by having only one, and that the one mentioned by the subpoena—the message signed "Bert."

PREVIOUS QUESTION.

The previous question was demanded by Messrs. Belshaw, Wright, and North.

The question being, "Shall the main question be now put?"

So ordered.

The question being on the amendment to the motion of Mr. Wright, offered by Mr. Cross.

Lost.

The question being on the motion of Mr. Wright to have all the telegrams read.

The ayes and noes were demanded by Messrs. North, of Alameda, Chynoweth, and Power.

The roll was called, and the motion carried by the following vote:

AYES—Messrs. Anderson, Austin, Belshaw, Breiling, Bridgford, Burnett, Burnham, Caminetti, Canavan, Chynoweth, Clarke, Damon, Dennery, Dolan, Elliott, Ennis, Fontana, Gately, Godfrey, Goff, Guy, Henry, Hill, Houghton, Hudson, Keables, Kelly, Lacy, Landsborough, Leavitt, Lindenberger, Mahoney, Malcolm, Mead, Melick, McGrath, North of Alameda, North of Yolo, Pohlmann, Power of Placer, Power of San Francisco, Price, Shanahan, Sims, Soward, Stansell, Strain, Toland, Treacy, Valentine, Vosburg, Wright, and Mr. Speaker—53.

NOES—Messrs. Bettman, Cross, Cutter, and Dibble—4.

#### EXPLANATION OF VOTES.

Mr. Power, of San Francisco, said:

There have been charges to a certain extent made against me in this matter, and I wish to say that, so far as I am concerned, if there are any telegrams in that report I would like to see them read, so that the Assembly may get at the bottom of this business. I desire that they should be made public. I have nothing to conceal in the matter, in spite of what may be falsely said by sensational newspapers. My attorney made a fight yesterday afternoon for three solid hours, by my request, to have those dispatches sent for, and I hope that every member of the Assembly will vote to have the telegrams read.

Mr. Bettman, of San Francisco, said:

I voted "No," because I do not approve of the manner in which those telegrams were obtained. I knew before I cast my vote that those dispatches would be read, and I have nothing to fear from an investigation. I voted for the bill two years ago and I voted for it now, but I do not approve of the highway robbery manner in which those dispatches were obtained.

Mr. Cross, of Los Angeles, said:

If my amendment had been carried I would have requested any telegram, which pointed to me or which insinuated anything against me, to be read.

MESSAGES FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }  
SACRAMENTO, March 20, 1897. }

*To the Assembly of the State of California:*

I have the honor to inform your honorable body that I have approved Assembly Bill No. 157.

JAMES H. BUDD, Governor

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }  
SACRAMENTO, March 20, 1897. }

*To the honorable the Legislature of the State of California*

GENTLEMEN. Every dollar of taxes imposed on the people of this State in excess of the amount provided by Assembly Bill No. 990 will, in my judgment, be an unnecessary burden. Forty and one half cents on every one hundred dollars of the present assessed value of the property of this State will raise, with funds in the treasury, and available on July 1, 1897, more than sufficient to meet the demands of this government for the forty-ninth fiscal year, and sufficient to meet them for the fiftieth fiscal year. Even the amount raised by this bill would have been unnecessary, and a tax levy of less than thirty-two cents per one hundred dollars on said valuation would have sufficed had my recommendation as to income taxes been adopted.

The professed apprehension that my successor may have to meet a deficiency is illy founded, and in view of the fact that this administration inherited over \$1,000,000 of deficiencies, debts, and obligations from past administrations, which it has or will be able to pay, and yet reduced the tax on the people far below its party pledge, ought to convince your honorable bodies that it will so handle the finances as to leave them in sound condition at the expiration of its term. The only ground for apprehension must lie in the fact that your honorable bodies have departed from a long established law as to deficiencies, and endeavored to make it more easy to create them by providing that a majority of the Board of Examiners may create a deficiency where a full board was required heretofore, thus making it possible, if the provision in the General Appropriation Act be held valid, to create such deficiencies in defiance of the Governor, who alone is responsible under the Constitution for the execution of the laws and the general management of State institutions. While this might be good *politics*, it is certainly bad *financiering*, and although I have no apprehension that under present conditions any harm will follow, financial disaster may in the future, under other boards and other circumstances, if the law be held valid.

You are on the eve of adjournment, and leave in my hands the general and other appropriation bills. Any item or bill may be absolutely defeated now by my veto, and I assume the responsibility of so reducing the amount, as with the funds available on July 1, 1897, and the amount to be raised by Assembly Bill No. 990, to be sufficient for the needs of this government for the next two fiscal years, excepting extraordinary, unforeseen demands; and should the majority of the Board of Examiners deem it necessary to create deficiencies in excess of this amount to be paid in the future, I assure you it will be more satisfactory to the taxpayers, than to have the burdens imposed during these hard times, and money needlessly locked up in the treasury, as it is now.

I invited the Chairman of the Ways and Means Committee, with the Controller, to meet in consultation as to these figures, and as a result of that conference I showed from the Controller's own figures that a levy of forty and one half cents per one hundred dollars of valuation would be amply sufficient.

I invited the Chairman of the Finance Committee of the Senate to meet me with the Finance Committee, and insisted on his bringing the Controller with him, stating that I could show from the Controller's own figures, in the Controller's presence, that the bill in the House was sufficient. The Chairman and members of his committee did appear, but he stated that the Controller had another engagement and could not appear.

I have the figures from the Controller, and I insist that with the money which will remain unexpended on July 1, 1897, the amount provided for in the Assembly bill is sufficient to run this government, unless the same be wasted.

I regret that under the rules of your bodies, adopted early in the session, these appropriation bills have been held back to the last minute, otherwise by my veto I would have been able to have given the exact figures from the appropriations allowed, and would have been able by a veto message to your honorable bodies to have shown such figures, and also to have shown that even less than the amount appropriated would be necessary.

If the bill for the amount desired to be raised by the Chairman of the Finance Committee of the Senate be sent to me, I will be unable to approve it, and I desire in advance to inform your honorable bodies of this fact in order that any responsibility for your not transmitting to me a bill for no more than the amount necessary to run the government for the next two years, may not rest upon me. Under present financial conditions, it is inadvisable to raise any more than is absolutely necessary. Idle money should never be accumulated in the public treasury, as it is a well-known fact that it is a constant temptation to extravagance.

I decline to assume the responsibility for any complications or expense which may result from your sending me an excessive tax levy.

JAMES H. BUDD, Governor.

The Seawell bill was to defeat an honest debt. This, Seawell will not and cannot deny. I never spoke to you nor any member about it. All my correspondence has been read in the House. Your action was as every honest man's should be, who understood the subject.

BARCLAY HENLEY.

SAN FRANCISCO, March 20, 1897

Saw attack by Seawell in paper. Statements false and malicious. I was regularly employed as attorney for McCarthy; appeared and conducted case in court; was in Sacramento four days; told by members committee unnecessary to appear before them; interviewed number Senators. If Seawell doubts I am alive, can cure him of delusion. Can show you had nothing whatever to do with case. Greater part money I collected paid to contestant. My fee was very small.

*Resolved by the Senate, the Assembly concurring,* That the Legislature of the State of California, at its regular session, commencing on the fourth day of January, Anno Domini eighteen hundred and ninety-seven, two thirds of all the members elected to each house concurring, hereby recommend that the electors of the State vote at the next general election upon the proposition to call a convention to revise the State Constitution, such proposition to read as follows:

All vacancies in the offices of delegates to be filled in the same manner as vacancies in the office of Assemblyman, and all contests over the election of delegates to be determined by the convention. #### REPORT OF SPECIAL COMMITTEE.

SACRAMENTO, CALIFORNIA, March 20, 1897.

*To the Honorable the Legislature of the State of California:*

The undersigned, a majority of your joint committee appointed by Assembly Concurrent Resolution No. 6 to examine into and report upon all matters connected with or in any way pertaining to the charges and statements made by the Governor relative to the management and conduct of the business and affairs of the State Printing Office, in his veto message vetoing Assembly Bill No. 263, dated February 9, 1897, and to report upon all matters and things in any way connected with or pertaining to the management and conduct generally, by the Superintendent of State Printing, of the business and affairs of his office, and to examine into and report upon the necessity for an appropriation for its support, and to carry on its business, for the remainder of the forty-eighth fiscal year, and the proper amount required for such purpose, and such legislative measures as may be deemed necessary to insure a strictly economical administration of the affairs of such printing office, have had the same under consideration, and beg leave to report as follows:

Your committee has taken a great deal of testimony, and all of the testimony of which it had any knowledge, and has pursued its inquiries in every way known to it to get at the facts concerning matters to be inquired into, in order that your committee might fully comply with the instructions received from your honorable body.

The committee, owing to lack of time and press of business upon the Chief Executive, have been unable to receive that assistance from him in this examination which it hoped to. The assistance received from him is wholly disclosed by the following correspondence:

On the 3d of March, 1897, your committee addressed to the Governor the following letter:

"SACRAMENTO, CALIFORNIA, March 3, 1897.

"Hon. JAMES H. BUDD, Governor of California :

"DEAR SIR: I am instructed by the committee having in hand the investigation of the State Printer's office, under the resolutions of the Senate and House, to request that you will appear before said committee with such papers, documents, and evidence as you may have regarding the said office, and the matters under investigation, and testify regarding the same.

"J. H. DICKINSON, Chairman."

To which, under date of March 10, 1897, it received the following reply:

"EXECUTIVE DEPARTMENT, SACRAMENTO, CAL., March 10, 1897.

"Hon. JOHN H. DICKINSON, Chairman Special Investigating Committee, etc., Sacramento, Cal.:

"DEAR SIR: Yours of date March 3d, in relation to the State Printing investigation, did not reach me personally until to-day, nor did I know that the same had been received until I saw the statement to that effect in this morning's 'Record-Union.' I had been informed that such invitation had been voted to be sent by your committee, and had prepared in part the rough draft of a reply. I also asked for said letter in my office several times from the date of my information to the present. Whether I had time to appear or not, I recognize that your committee was entitled to an immediate response in character equally as friendly as your letter to me. This morning, after a search, your letter was found in the bottom of a basket of other letters, where it had been placed and evidently forgotten by my private secretary, Mr. E. D. McCabe. I have no apologies to offer for his oversight, other than the great press of business in this office attending the session. When your second letter reaches me, I will at the first possible moment consider the same. You will recognize the fact that, while this session of the Legislature will run without the personal attendance of individual members, the Governor is compelled to pass upon all measures before him, and that he notified you in his first biennial message: 'These last ten days are the busiest days of the session; both Governor and legislators work from early morning until long after midnight; and but for the wisdom of our Constitution-makers in giving the Governor ten days after the adjournment of the Legislature, he would be unable, almost in any degree, to consider or even read the volume of measures that pour in upon him at the rate of twenty and upward per day. The Governor should be given sufficient time in which to familiarize himself with each measure submitted to him for his signature, and should not be

required to pass upon any measure until after careful consideration. The time is too short now to consider the volume of business thrust upon a Governor during these ten days; and he would be better able to act fairly if a constitutional amendment gave him thirty days after the expiration of the session in which to consider such bills.

"You will recall that my veto message of the printing bill reached the Legislature on the 9th of February, and that your letter to me was not sent or drafted until nearly one month later—March 3, 1897—during the busiest portion of the session.

"Yours very truly,

"(Signed:) JAMES H. BUDD."

Immediately before receiving the last letter, your committee sent the following communication to the Governor:

"SACRAMENTO, March 9, 1897

"Hon. JAMES H. BUDD, Governor of the State of California

"DEAR SIR: I am instructed by the committee appointed by Assembly Concurrent Resolution No. 6, adopted in the Assembly on the 17th inst., and in the Senate on the 24th inst., to transmit to you the following communication, to which, by reason of the shortness of the time remaining of the present session of the Legislature, we respectfully request an early answer:

"WHEREAS, On the 9th day of February, 1897, in your message to the Assembly of the Legislature of the State of California, setting forth your reasons for vetoing Assembly Bill No. 263, entitled 'An Act making an appropriation for the support of the State Printing Office for the forty-eighth fiscal year,' you charged the Superintendent of State Printing of this State with mismanagement and extravagance in his management and conduct of the business and affairs of the State Printing Office of this State, and in his expenditure of the appropriations heretofore made by the Legislature for the support and maintenance of said State Printing Office; and

"WHEREAS, You supplemented your said charges in said message with sundry general statements and figures concerning the management and conduct of said State Printing Office by said Superintendent of State Printing, and concerning the business and affairs generally of said State Printing Office, and the past appropriations for the support and maintenance thereof, many of which said statements and figures purported to be taken by you from and to be conclusions based upon certain alleged evidence which you claim to have in your possession; and

"WHEREAS, By Assembly Concurrent Resolution No. 6, the Legislature of the State of California appointed Senators Dickinson, Gillette, and Seawell, members of the Senate, and Messrs Price, Denny, and Caminetti, members of the Assembly of said Legislature, a joint committee to examine into and report upon the said charges made by you in your said message, and to examine into and report upon the management and conduct generally by the Superintendent of State Printing of the business and affairs of the State Printing Office, and to examine into and report upon the necessity for an appropriation for the support and maintenance of, and the conduct of the business of the said State Printing Office for the remainder of the forty-eighth fiscal year, and the probable amount thereof, giving and conferring upon said joint committee full power and authority to do any and everything necessary to a full and complete investigation of all of said matters, and

"WHEREAS, It is the desire of said joint committee to make said investigation as full and complete as possible; and

"WHEREAS, The said joint committee is informed that you have stated that you have collected and have in your possession, and have knowledge of, a large amount of valuable evidence concerning the said charges made by you in your said veto message, and concerning the management and conduct generally by the said Superintendent of State Printing of the business and affairs of said State Printing Office, and concerning each and all of the matters and things which said joint committee was appointed to inquire into and report upon; and

"WHEREAS, The said joint committee is not possessed of the said alleged evidence or any evidence tending in any way to support the charges which you have preferred against the said Superintendent of State Printing; and

"WHEREAS, It is of the highest importance to and to the best interests of the State that all of the facts possible pertaining to the management and conduct of the said State Printing Office and its business and affairs generally, and to each and all of the matters enumerated in said Concurrent Resolution No. 6, appointing the said joint committee, should be fully inquired into at this time by the said joint committee, and brought out by this investigation; and

"WHEREAS, The said joint committee deems it absolutely essential to the proper performance of its duties, and to a full and complete investigation of the matters and things which it was appointed to inquire into and report upon, that it should be unreservedly placed in the full possession of any and all evidence of every kind and character, in any way bearing upon either or any of the matters and things which the said committee was appointed to investigate; and

"WHEREAS, This committee did, on the 3d day of March, 1897, address and deliver to you a letter in the following words.

"SACRAMENTO, CALIFORNIA, March 3, 1897.

"Hon. JAMES H. BUDD, Governor of California:

"DEAR SIR: I am instructed by the committee having in hand the investigation of the State Printer's office, under the resolutions of the Senate and House, to request that

you will appear before said committee with such papers, documents, and evidence as you may have regarding the said office, and the matters under investigation, and testify regarding the same.

“J. H. DICKINSON, Chairman.”

“To which this committee has not received any reply; and

“WHEREAS, The said joint committee is aware that it is powerless to compel you by subpoena, or otherwise, to appear before it and give testimony, if you should elect to avail yourself of your prerogative as Chief Executive, or should base it upon a press of executive business, or the privilege with which you may, in your discretion, withhold communications made to you in your official capacity, and information gathered by you to guide you in the performance of your official duties;

“Now, therefore, in view of the premises, and in view of the gravity of the charges made by you in your said message against the said Superintendent of State Printing, and in view of the fact that the integrity of a State officer is in question, and the proper expenditure of State money is being considered, the said joint committee respectfully and earnestly requests you to cooperate with it in this investigation, and to appear before it and furnish it with any and all evidence of every kind and character of which you may be possessed in any way concerning the said charges, or either or any of the said charges, made by you in your said message, or concerning any of the matters and things which this committee was appointed to inquire into and report upon. The committee holds itself subject to your convenience, and respectfully requests an early reply.

“Respectfully, your obedient servant,

“JOHN H. DICKINSON, Chairman.”

To which, on the 15th day of March, 1897, the committee received the following reply :

“Hon. JOHN H. DICKINSON, Chairman Investigating Committee, etc., Sacramento, California :

“DEAR SIR: Since answering your letter of March 3d, I have received another letter from your committee, of date March 9th, to which at this, the earliest possible moment, I hope you will permit me to reply. In this letter, which requests from me certain evidence, and requests my cooperation in the investigation now in progress before you, you recite that you have discovered ‘no evidence tending in any way to support the charges’ which I have made against the Superintendent of State Printing in my veto message of February 9th last. I am surprised that you should regard the evidence already in your possession so lightly, and in this connection would call certain facts to your attention

“I complained in my veto message that Section 531 of the Political Code requires the Superintendent to make a report to the Governor ‘embracing a record of the complete transactions of his office,’ ‘which report shall show in detail all the items of expense attending the State printing, and all the expenses of the office,’ and that the Superintendent had failed to make the report required by that section. You have the report, and you have the law. Ordinarily, the fact that the report did not comply with the law might be deemed some ‘evidence tending in any way to support the charges’

“I complained that the Superintendent presented a payroll for labor performed for the time from July 1 to July 13, 1896. Attached to this payroll was a sworn statement that the services were actually rendered ‘in the manner and on the dates as above stated, and that the services herein mentioned were actually rendered’ Mr Johnston’s foreman, Mr Thorpe, has admitted, before your committee, that the statements made in this affidavit were not correct. Mr Johnston’s affidavit is on file with the Controller, and the facts are before you. This is *some evidence*

“I stated that Mr Johnston had failed to make application to the Board of Examiners for permission to incur a deficiency, as he is specifically required by law to do, and I transmitted with my veto a copy of his letters, from which the truth of this statement appears, and these letters are printed in the Assembly Journal of February 9th last

“I stated that his recent official report to me, dated September 15, 1896, shows that for the fiscal year ending June 30, 1896, he had expended of the appropriation for the support of his office \$146,000 59—or more than one half of his appropriation, and in addition had used stock on hand to the value of \$12,085 76—making the total expenditure for the year \$158,086 35, and that he claimed to have done less than \$95,000 worth of work. Mr Johnston’s own report of that date is before you, and on its face bears indisputable evidence of the truth of this statement. This is *more evidence* supporting my charges.

“I was informed that when Mr Johnston was before your committee, and was asked to explain this great discrepancy, he testified under oath that his report to the Governor was not correct in its statement of the amount of money used for the work and materials of the forty-seventh fiscal year.

“I further understand that Mr Johnston testified that he had expended of the appropriation made for the forty-seventh and forty-eighth fiscal years, for labor done, materials purchased, and indebtedness incurred during the latter part of the forty-sixth fiscal year, about \$28,000.

“It is possible that your committee has overlooked the full import of this admission. It conclusively shows that the Superintendent of State Printing created a deficiency during the forty-sixth fiscal year, and endeavored to incur an indebtedness in violation of plain provisions of law. No provision of our law is more plainly expressed than this, that no officer ‘in the service of the State shall have power to create any deficiency in

excess of any appropriation of money made by law,' except upon the unanimous written consent of the Governor, Attorney-General, and Secretary of State, and any indebtedness attempted in violation of this requirement 'shall be absolutely null and void,' and shall not be 'paid out of any State appropriation.'

"When the Superintendent of State Printing used this sum of about \$28,000 out of the appropriation specifically for the forty-seventh and forty-eighth fiscal years, to pay an indebtedness incurred in the *forty-sixth* fiscal year, in direct violation of law, he caused a misappliance of the funds set apart for the support of his office for said forty-seventh and forty-eighth fiscal years, paying out of an appropriation for that time a debt unlawfully contracted at a previous time, and which the law in express language provided should not be 'paid out of any State appropriation.' When you add that, in order to have accomplished this, Mr. Johnston must have made an oath to the State Board of Examiners as to the correctness of the claims, and that they were for work, labor, and materials furnished and done in the forty-seventh fiscal year, you might be said to have some 'evidence tending in any way to support the charges.'

"The records of the Controller's office will show that Mr. Johnston's claims did not state that they were for indebtedness incurred, as he stated, in the *forty-sixth* fiscal year, and that if money was drawn for that purpose it was without the knowledge of the Controller, and in violation of law.

"I annex a letter from the Hon. E. P. Colgan, State Controller, in reply to my inquiry into this question, which is self-explanatory.

"It is useless to expect any conflict between the Controller's figures and the Printer's for expenditures, as the former are based on the sworn statements of the latter.

"Mr. Johnston has frequently attempted to explain any irregularity which might appear in the management of his office by saying that no money was drawn from his appropriation except upon claims allowed by the State Board of Examiners. When it is recalled that the only evidence before the board for its information is the sworn statement of that gentleman, and when you thus find that affidavits of this character, and of the character of the affidavit attached to the payroll of July 1 to July 18, 1896, are known to have been made, you will realize how little check there is upon the expenditure of the vast sum biennially appropriated for the support of the State Printing Office.

"Another statement I made in my veto message was that the State Board of Education, which, under the law and Constitution, has the right to order printed the school text-books, made an order directing the Superintendent to print no more copies of a certain grammar until the further order of the board. This order was one which they had authority to make, and which it was the Superintendent's duty to obey, and any responsibility for its observance rested alone upon the Board of Education. Mr. Johnston admits to you that he violated this order of the authority which the law and the Constitution placed above him, and printed ten thousand copies of the forbidden grammar, with the result that he has nearly eight thousand copies on hand unused.

"I also charged that he had paid a higher price for coal than was necessary, and, when before your committee, he testified he had paid higher prices for coal than had been paid for coal purchased under contract by other State officers, but that the reason he had done so was that the coal he purchased had a greater steam and power producing capacity than the contract coal. The fact remains that the coal which was being bought under contract at a less rate than he was paying, brings a higher price in the general market, and later, when bids were received for both varieties, the coal for which the Superintendent was paying the higher price was offered at a lower rate than the other variety, and both materially lower than the cheaper variety.

"I stated the circumstances attending the contract he made for an electrical plant. This contract was improperly entered into, and the facts attending it, and the improprieties with which it was surrounded, can easily be discovered and verified by the secretary of the Board of Examiners, by the Hon. L. H. Brown, and by the proprietors, managers, or employes of electrical companies in Sacramento.

"My statement regarding Mr. Taylor and the information he has given me was amply verified by that gentleman in his sworn statement before you, and you must remember that Mr. Johnston has borne strong testimony as to the capacity and ability of Mr. Taylor.

"I charged that the cost of public printing in this State was all out of proportion to its amount, and was much more expensive than the printing in other States. The figures to verify this statement are at your command, as is the Library Bulletin of New York, where the figures are tabulated and compared, and you can with equal facility verify my statement, that the statement Mr. Johnston, made to me of the printing done for my predecessor, was incorrect.

"In your communication to me, you state that you deem it essential to the performance of your duty, and to a full and complete investigation of the matter you are charged with investigating, that you should be placed in the full possession of all evidence of every character relating to this matter, and as you asked my cooperation, I would suggest that you examine the Superintendent of State Printing, and his employes, in detail, as to the statements in my message, and that you secure experts to determine why an expenditure of \$146,000 produced only \$94,000 worth of work, and to learn the capacity of the presses, compositors, and other employes and machines, and to determine as to the number of persons necessary to operate the machines and do the work, and if the number employed was greater than the capacity of the machines and the demands of the institution would justify. You might examine the payrolls, and determine if there was any increase in the number of persons employed immediately before or after

the holding of political primaries or conventions, or immediately before an election. The expert might then report if the work ordered at these times, or the work actually performed at such times of full rolls, justified the increased employment. Some 'evidence tending in any way to support the charges' might then be discovered.

"You might submit orders which have been executed at the State Printing Office to any leading San Francisco houses which do not deal with that office, and get their estimates as to what they would do the work for. To a perfectly unprejudiced mind, it might be regarded as a circumstance tending to support my charges that extravagance was practiced in that office, that the payroll of the first eight weeks of the present session exceeds the payroll for the corresponding time of the last session by over \$14,000, and this, although you have simplified the method of legislative printing.

"You might inquire why the Superintendent had never given the Governor the statement required by the Political Code, and why, in answer to all inquiries of this office, he has given only the unsatisfactory statements contained in the appendix to my veto message, and you might renew to him the questions which he has as yet neglected to answer to me. You might also ask him why, in giving me a statement of the work he had done for Governor Markham, he omitted so many items, and whether such omissions were willful or the result of improper bookkeeping. And the fact that he had to change the figures on his books by nearly \$10,000 to make them balance in the forty-fourth fiscal year, might further enlighten you.

"I might call your attention to the report of the Assembly Committee on Commissions, Retrenchment, and Public Expenditures, which was submitted February 11, 1897. In this report the committee states that in the books and accounts of the State Printing Office they found an 'apparent irregularity,' for which they, after examining Mr. Johnston, his bookkeeper, and his foreman, were unable to give a reason. They further reported 'that in the matter of the publication of State documents, the method is of such character as tends to unnecessary expenditures of State money; that the so-called "legislative printing" account is loosely conducted,' etc. This committee was enabled, after two days' investigation, to discover irregularities in the Superintendent's accounts, and that the State moneys were unnecessarily expended in that office, and its members might, if appealed to, supply you with some 'evidence tending in any way to support the charges' of irregularities in this office, and its accounts and management.

"I will again state that the extreme press of official business has prevented me taking part in the investigation which you are conducting, and which I deemed you truly competent to successfully conduct. In view of the grave case which the record discloses, I cannot account for your statement that you have discovered nothing, and submit that if the facts set forth above do not constitute 'evidence tending in any way to support the charges' I made in my veto message, then these charges could not be sustained by any evidence.

"Yours respectfully,

"JAMES H. BUDD, Governor.

"March 13, 1897.

"P. S.—Since finishing the above I understand that an 'incomplete report' of the printing experts shows that, while they are unable, from lack of time, to make a thorough investigation, or, as they say, 'to go into the subject thoroughly and do it properly, we decided to deal with the work intrusted to us in a general manner and see if, by our recommendations, we could improve the methods in vogue in some parts of the establishment, and thereby save unnecessary expenditure existing under the present conditions'.

"And they concluded as follows: 'If the foregoing recommendations are adopted and properly enforced, we estimate that a saving of from \$15,000 to \$20,000 per year will accrue to the State.'

"I deem that a saving of \$40,000 biennially on this 'incomplete investigation' will certainly be of great value to the taxpayers.

"Yours truly,

"JAMES H. BUDD "

"(Enclosure:)

"CONTROLLER'S DEPARTMENT, STATE OF CALIFORNIA, March 10, 1897.

"Hon. JAMES H. BUDD, Governor, Sacramento, California."

"DEAR SIR: Replying to your inquiry of even date, I beg to state that no claim of the State Printing Office for work or labor done, or supplies or materials furnished, during the forty-sixth fiscal year, has been paid out of the appropriation for the support of that office for the forty-seventh fiscal year. This could not be done under the law, as the appropriation for the support of the State Printing Office for the forty-seventh and forty-eighth fiscal years is included in the General Appropriation Act of 1895, and cannot be expended for bills or claims accruing in any other fiscal years. The bills, which are sworn to by the Superintendent of State Printing as being correct, must show on their face the fiscal year in which the indebtedness was incurred, and I could not legally draw my warrant against the appropriation for the forty-seventh fiscal year in payment of an indebtedness for the forty-sixth fiscal year.

"Very respectfully,

"E. P. COLGAN, Controller."

The above covers all of the correspondence between your committee and the Governor, and the information received thereon

By the resolution, the minority committee were authorized to appoint an expert accountant and an expert printer to assist the committee in such examinations as they might be directed to make. The majority of the committee also appointed an expert accountant and an expert printer. Mr. L. Wadham and Mr. J. C. Ruddock were appointed expert accountants, and Mr. Frank Malloye and Mr. Walter Brunt were appointed expert printers. Owing to the shortness of time at the disposal of your committee within which to make the investigation, it was deemed best to commence with the present administration of Mr. Johnston's office, since his election thereto, in January, 1895, and bring the examination down to date; and if anything should be developed rendering it proper or necessary, or should there be sufficient time, to let the examination go as far back as possible. The accountants have experted the books, commencing with July, 1894, and the result of their examination of the books is fully set forth in their reports to the committee, which reports accompany this report. The reports of the printing experts show also what they have done, and the method and nature of the examination made by them, and their reports also accompany this report.

Your committee deems it proper at this time to take up in order the matters contained in the said veto message, and answer them, as the result of this investigation shows the facts to be. In the veto message, complaint is made that the title of the Act, Assembly Bill No. 263, to wit, "An Act making an appropriation for the support of the State Printing Office for the forty-eighth fiscal year," is intended to serve the purpose of a deficiency appropriation, and then citations are given from the statutes to the effect that no officer or employé in the service of the State shall create any deficiency without permission of the Board of Examiners.

In reply to this, we beg to state that it has been usual to pass an appropriation bill at each session of the Legislature in the general form of Assembly Bill No. 263, and we are unable to see how it can be complained of as serving the purpose of a deficiency appropriation, when the fact is understood that at the time when said bill was introduced in the Assembly there was no deficiency, and that this appropriation was asked for and intended to pay the expenses of the continuance of the business of the State Printing Department.

In our judgment it was not necessary for the Superintendent of State Printing to obtain from the Board of Examiners any showing as to the actual necessity for the moneys asked for in that bill, having in view the idea all the time that there was no deficiency, and that none would necessarily accrue before the passage of the bill in the ordinary course of legislative business. It will be remembered that Mr. Johnston is a State officer, elected by the people, and under bonds to perform his duty like other State officers. He is, of course, amenable to the law, and he seems, by the testimony of himself and also of the Attorney-General, with whom we frequently consulted, to have continuously endeavored to comply with the law during his administration. And while it is true, as stated in the veto message, that he did make a written application to the Board of Examiners for a written recommendation to the Legislature for the appropriation asked for in Assembly Bill No. 263, and that he did withdraw the same, still, we do not see that he is subject to any criticism for that. He desired the recommendation as an assistance to his getting the amount allowed by the Legislature, and that is the only object he could have had in applying for a recommendation, and is the only effect passing on the recommendation could have had.

As to the necessity of the appropriation, it has been fully verified, because, subsequently to the vetoing of Assembly Bill No. 263, one bill for \$40,000 for the benefit of the State Printing Office had been passed and approved by the Governor, and another bill for \$35,000 has been similarly passed and the Governor permitted it to become a law without objecting thereto, neither did he approve the bill. So that the effect is that \$75,000 has been appropriated. And another bill is now pending for the appropriation of an additional sum of \$7,500 to complete the work of the present fiscal year.

It will be remembered that when Assembly Bill No. 263 was introduced, the Legislature was in session, and the money appropriated by that bill was required chiefly for the use of the Legislature in having the necessary printing done to enable it to conduct its business. And again, it will be remembered that if the \$75,000 had been at that time appropriated, none of it goes to or is handled by the Superintendent of the State Printing Department, or by any one in his office. Every claim for labor or material, or charge of any kind, paid for out of the funds appropriated for the support of this department, has first to be presented to the Board of Examiners, approved by them, and then the warrants are drawn directly to the party having the claim and delivered to him. So that the State Printing Department never handles a dollar in any way, and therefore the money appropriated for its maintenance and support remains at all times in the treasury until called for by the Controller's warrant, issued upon a claim approved by the State Board of Examiners.

Attention is called in the veto message to the fact that the title of Assembly Bill No. 263 is subject to the vital constitutional objection that it "embraces more than one subject, which subject shall be expressed in its title." This is a matter on construction of the language, and we submit that an examination of the title will show that the Act was for but one purpose, and that purpose was "making an appropriation for the support of the State Printing Office for the forty-eighth fiscal year."

In the veto message, stress is laid upon the fact that two years ago, in passing upon the appropriations made by the Legislature for the support of the State Printing Office, the Governor approved the allowance of \$250,000, upon the expressed assurance of the Superintendent that he would operate his office within the proposed appropriation, and

would neither allow nor create a deficiency. Regarding this matter, your committee begs leave to report that nowhere has it been charged that there has been any defalcation or malfeasance in the administration of the State Printing Department, but that by reason of careless and extravagant management, much more money has been required to maintain and support the department than has been necessary. From an examination of the testimony, and the reports of our experts, we are satisfied that the business of the State Printing Office has been properly and economically conducted. The work turned out has been of good quality, as it should be, and the cost of turning the same out is but a trifle, if anything, more than it costs to do similar work in private printing establishments having the capacity to do such work, and Mr. Johnston was undoubtedly sincere when he told the Governor that he should conduct his office within the \$250,000 to the end of the forty-eighth fiscal year, or July 1, 1897. But it has turned out as a fact that it has cost more than that amount, and we therefore see no reason why, because he erred in making a guess (which it necessarily was) as to what it would cost, that the necessary support and maintenance of the office should be interfered with in any way. He accounts in every detail for his expenditure of the entire amount of money, to wit, \$250,000, and after so doing, there remains a large amount of work to be done, including nearly all of the necessary legislative printing for the current session. This had to be done, and money had to be appropriated with which to do it.

It also appears that some work, such as printing for the Bureau of Highways, the Dairy Bureau, the printing necessary in the suit between the Railroad Commissioners and the Southern Pacific Company, and some other matters, were not considered when \$250,000 was believed to be sufficient. And in the absolute lack of any evidence of any wrongdoing or malfeasance in the management of the department, Mr. Johnston, in our judgment, is merely chargeable with having erred in his judgment and estimates. The Governor thought that \$200,000 would be sufficient. Mr. Johnston thought it required \$250,000. The Governor yielded to Mr. Johnston's judgment. Experience has shown that both erred and were mistaken in the premises.

With regard to the charge that more was being paid for articles and supplies in the State Printing Department, and that there was, in many instances, a considerably higher price paid than was paid by persons purchasing by contract, we have no means of verifying that statement in the veto message. But an examination of the testimony and of the reports of experts will show that there has been no difficulty in these matters, and that purchases have been made at the fair market price, and in some instances at less than they were being purchased for by ordinary consumers of printers' supplies; and that since July, 1896, contracts have been let, wherever possible, for the supplies of the State Printing Department. We are not advised as to what articles the Governor refers to particularly in his message, but the reports of the experts are sufficient to show that Mr. Johnston has not abused his position in the purchase of supplies to the detriment of the State, in any particular.

Regarding the increase in the payroll of the last two weeks of October, in 1895, which the veto message suggests was an increase made in consideration of the city election in Sacramento being held immediately theretofore, we have to report that there is no evidence to sustain any charge of improper conduct on the part of the Superintendent of State Printing in this direction, but that the force employed by him at the times mentioned was necessary for the execution of the business of the State Printing Office then in hand.

As to the charge that there were employes carried on the payroll from July 1 to July 14, 1896, who performed no duty and rendered no service during that time, the evidence shows that there were three assistant foremen and one foreman who were granted a vacation, or leave of absence, with pay, and that this was done for two reasons: One, that these employes had worked overtime during the preceding session of the Legislature, for which overtime they had never charged or received any pay; and that such overtime, had it been paid for, would more than offset the allowance made them during the vacation given them. Second, that it is customary in all printing establishments to allow the foremen therein a vacation of from ten days to two weeks each year. Your committee, therefore, exonerates Mr. Johnston from any blame in regard to this matter.

Regarding the employment of a printing expert, we find that Mr. Harrison was appointed, as stated in the veto message, and that the opinion of the Attorney-General was asked regarding the validity of his appointment, and what duties he should perform, and his opinion is given in his letter to the Governor of August 13, 1896, which correctly states the law regarding such matters. And in this connection your committee draws attention to the fact that after the letter of August 13, 1896, to the Governor, there seems to have been no effort made in any manner to have the books or office of the State Printer experted or passed upon; and in this connection we deem it proper to state that nowhere during this entire period of time, embracing the years 1895, 1896, and down to the present time, does there appear upon the records of the State Board of Examiners any protest or objection to any of the accounts presented by the State Printing Department in any form; and we regret that the Governor should have deemed it his duty to withdraw his approval, and failed to note his dissent of any claims presented by the State Printing Department, as stated by him in his veto message. The law making it the duty of the State Board of Examiners to pass upon these, as well as many other claims, it is to be regretted that the Governor should not have acted by assenting or dissenting when those matters were being considered.

It will also be remembered in this connection that it nowhere appears that Mr

Johnston was averse to having an expert examine his affairs. On the contrary, it appears that he was perfectly willing to have it done.

The statement appears in the veto message that the Superintendent of State Printing is required to make a yearly report in writing to the Governor, embracing a record of the complete transactions of his office for the preceding fiscal year, which shall show in detail all of the items of expense of the office, including repairs and purchases of materials of all kinds. If this were literally complied with, the State Printer's report would be merely a publication of the transcript of his books, which would make a very voluminous document. He seems to have made his report for the forty-seventh and forty-eighth fiscal years in accordance with the custom that has always pertained in that office, and which pertains in other offices. For instance, he divides the expense up into certain heads, as for composition, night-force, press-room, miscellaneous, electro, engraving, and bindery. In other words, he gives the aggregate of the different items without giving the details of any of them, and this would seem a proper way to make the report, when you remember that the books containing the items upon which the report is based are subject to inspection at any time to get at any of the details which may be desired.

In the veto message it appears also that \$51,293 84 is unaccounted for. After crediting Mr. Johnston with repairs, which is undoubtedly a proper credit, the statement is then made that \$39,294 96 remains to be accounted for. It appears from the testimony that a book called an order book is kept by the foreman of the State Printing Office, in which he enters the number of hours of composition and the value of the material used in connection with each particular piece of work. This is a book which is not required to be kept by law, but is really kept for the purpose of advising in a manner as to the cost of work done at the State Printing Office. Of course, the office is charged annually with a certain amount of money. Against this is charged the labor and material used, together with all of the incidental and other expenses of the office, and if these balance there can be no discrepancy, and the only thing that could possibly be called into account then would be the correctness of the various charges. The thorough examination made by the experts, and the testimony of the witnesses, show that there is not and never has been any discrepancy, and that no difference exists between the charges and the credits in the office. It seems that in this order book the composition is charged up to each piece of work, as before stated, as is the case with the material, and then a percentage is added, that being merely an estimate of what is sufficient to charge for other expenses in connection with the running of the office, such as the monthly salaries, salaries of foreman, engineer, and other employes, outside of the composing-room, press-room, and bindery. If this estimate be correct, the apparent discrepancy named in the Governor's veto message could not exist, and if the estimate be too low then a discrepancy would appear. On the other hand, if the estimate should be too high, then there would be a surplus to the credit of the office, which surplus would not and could not possibly exist. Therefore, the discrepancy, for the same reason, could not possibly exist. This is an arbitrary credit to the office, and is charged to each particular department, and is based entirely upon estimates. And here is where the difficulty arose which gave rise to the apparent discrepancy. An examination of the books would have shown very quickly that there was no discrepancy. In making up the report giving the condensation of all items, and in explaining why a discrepancy might arise, as before explained, arose the difficulty regarding this amount, and in this we are undoubtedly correct, for it has never been charged that any funds have ever been abstracted, or any dishonest practices indulged in, but it has been argued inferentially that too much has been paid for labor and too much for material. If this be true, it would not affect the result as to the figures in the books, and this apparent discrepancy vanishes also when we consider that from it should be deducted the credit of stock on hand, as appears from page 28 of the book, \$15,698 48; miscellaneous employes, on page 22, about \$7,500; monthly employes, on the same page, \$6,200. Then, there is in the item charged up for composing, over \$7,000, which was the pay of the foreman and assistant foremen, which does not enter into the computation as to the cost of any work done in the office, but only into the percentage above mentioned. Also, there is \$1,300 for insurance, not entered up in the cost of work, and the cost of moving, and some repairs.

In the veto message, printing was done for the Governor and charged in the account at \$4,625 85, which it was stated was submitted to an expert employed by Mr. Barry, of the "Star," who made an estimate as to what it could be done for in San Francisco, and he reported that it could be done for less than one half. Your committee requested Mr. Barry to appear before the committee, but he telegraphed that he knew nothing except what Mr. Taylor, a witness called before the committee, had told him, and that the expert who had made the computation for him was sick, so we were unable to get any information as to this estimate, or the manner and conditions under which it was revised, which we very much regret. Mr. Taylor, to whom reference has been made, appeared before the committee and testified that he was foreman of the State Printing Office down to January, 1895, for several years, that he was discharged at that time, and knew nothing regarding the office, except from hearsay, since that time. Therefore, his testimony, as given and reported, in which he made charges referred to in the Governor's veto message, was made entirely upon what he had heard, and what he claims to have acquired knowledge of while he was in the office, and therefore his testimony was of but little assistance to your committee.

As to the statement that on June 10, 1895, the State Board of Education passed a resolution directing the Superintendent of State Printing to print no more copies of a

grammar until the further order of the board, that was fully explained by Mr. Black, Superintendent of Public Instruction, who stated that, when that order was issued, it was understood that the purchase of new grammars (a revised one being then in course of preparation) should not be obligatory upon pupils in our public schools until one year after the plates were completed and the grammars ready for delivery, and that time has not yet come, and will not come until the coming May, the grammar and its printing having commenced only in May, 1896, as he stated, and it was necessary for the Superintendent of State Printing to keep grammars on hand of that kind to supply any demand of that kind there might be for them. Consequently, when the order was made in June, 1895, there were over seven thousand on hand, which have all been disposed of, and that an edition of ten thousand has been since printed, and about one third of those have been disposed of, and orders are received from time to time for them. In editions of ten thousand, it appears from the testimony, the expense of printing school-books is much reduced from the expense of printing a less number at one time, and the Superintendent of State Printing believed that the edition of ten thousand was required, and therefore printed them.

It also appears that there is a considerable saving to the State Printing Office monthly resulting from the putting in of the electrical plant and its maintenance; that perhaps a better contract could be made now than the one in existence, but the one in existence was a fair one at the time it was made, and is not the subject of legitimate criticism.

Mr. Taylor, the witness before mentioned, testified that in his opinion 27 girls would be sufficient to do the work in the State bindery, even in the rushing times of the legislative printing. In this the experts do not at all agree with him, and the testimony all is that it requires a much larger number at such times, and the testimony also shows that the labor which has been and is now being employed in the State Printing Department is necessary, and that the wages are fair and reasonable. While it is true that the highest wages are paid at the State Printing Office, yet it is also true that none of the compositors are given steady employment, as an examination of the payroll has shown. For instance, on the second payday of January, 1897, 305 employes were upon the roll. That is the number rendered necessary to do the legislative work. On the second payday of January, 1896, 127 employes were on the roll. And a further reference to the payroll shows the number of employes to vary from fifty to one hundred per cent, month by month. It has been estimated that the compositors cannot average to exceed \$2.25 a day throughout the year. The lowest Union scale in Sacramento is \$3.50 per day, and in San Francisco \$5 per day. But at these rates the workmen generally have steady employment throughout the year. These rates are the minimum at which compositors can work, and first-class printers working on time generally obtain more than the above minimum rates.

Printing was so great, and the extravagant prices paid for the work were so marked, that even in those days when California was rich, the protest that arose against this method of doing the work was so emphatic that it was decided to depart from it forever. Under the contract system the work passes to some favored contractor, who soon gets a monopoly of the business, and pays the laborers what he pleases, and the amount paid for State printing, instead of being disbursed among honest workmen at a fair rate of wages, is paid to the contractor, who has his work done as he desires. A comparison of the prices paid for State printing under private contract, and that paid by the State Printing Office, shows that the former system is vastly more extravagant.

The State Printing Office, as at present conducted, is run on Union principles. Union wages are paid, and there is no rich contractor to bleed the State by excessive profits. The Superintendent receives a salary for his services, and nothing else.

We think it would be a serious mistake for the State to depart from this system and enter once more upon the speculative period of printing by private contract.

We find that there is practically no check upon the amount of work that may be ordered by the different departments of the State, and that the extravagance, if any there be in this office, is not caused by the State Printer, but is caused by the different officers and departments of the State ordering an excessive amount of printing, or having fancy printing done at a large cost.

We also find, from inspection of the proof-sheets, that frequently the changes and alterations made are so great that it costs more to make them than it did to set the manuscript originally. This is an evil that ought to be corrected, and in accordance with the recommendations contained in the experts' report, we recommend that hereafter all officers and institutions sending matter to the State Printer shall be required to place the same on paper of uniform size, and typewritten, and that they be not allowed to make changes after the transcript has left their hands.

We would respectfully call your attention to that portion of the report of the experts recommending the purchase of new type and additional machinery, and desire to say that we have given careful attention to this subject and join in their recommendations. We think a saving can be effected in this respect.

The mechanical experts have, at the end of their report, suggested many recommendations by which a saving may be made. These call for the purchase of new machinery, new type, change in boilers, and other matters, which are specifically described. These changes and recommendations meet with our approval.

In conclusion, we desire to say that we have been agreeably surprised in finding the system that prevails in this institution. It is larger than we are, we are satisfied, a majority of the people of the State realized. We find that Mr. Johnston, the Superintendent, is a practical printer of long experience, and thoroughly competent to handle

the institution under his charge. He has under him a corps of efficient assistants, and a discipline prevails in the State Printing Office rarely to be found among public institutions. It is conducted in all respects as a first-class private institution would be.

There are sundry recommendations as to improvements that might be made in connection with the State Printing Office, but the shortness of time prevents the putting of any of them into legislative form. In fact, most of the recommendations are such that the State Printer can avail himself of them without legislative action, and we dare say that he will do so, as they simply tend to the perfecting of the method of keeping the accounts, rather than as to their substance.

The testimony taken has been very full, and much time has been devoted to this hearing. And, having given the whole subject careful consideration, we are of the opinion that the office of Superintendent of State Printing has been conducted on business principles, and with economy and due regard for the public interests.

The testimony taken, together with the reports of the experts, are herewith filed

# MINORITY REPORT

SACRAMENTO, March 20, 1897.

MR. SPEAKER: The undersigned members of your committee heretofore appointed to investigate the charges made against the management of the State Printing Office in the veto message of the Governor, dated February 9th, last, cannot agree with the majority of the members of said committee, and beg leave to submit to you their findings in such investigation.

After organization, it was proposed that the investigation be confined to the time since January 7, 1895. A motion to that effect having been made.

Mr. Caminetti offered the following substitute:

"WHEREAS, The Superintendent of State Printing has spent, for the support for the State Printing Office for the last six fiscal years, the sum of \$358,096 85, as follows, viz.:

Forty-second fiscal year.....	\$158,622 20
Forty-third fiscal year.....	99,634 78
Forty-fourth fiscal year.....	150,349 48
Forty-fifth fiscal year.....	137,119 67
Forty-sixth fiscal year.....	162,370 13
Forty-seventh fiscal year.....	146,000 59
Total.....	\$354,096 85

"AND WHEREAS, It appears from the reports of the Superintendent of State Printing that the sum of \$139,138 66 is not charged against the departments or the Legislature, and the reports do not show for whom the work was done, viz.:

Forty-second fiscal year.....	\$22,207 55
Forty-fifth fiscal year.....	65,637 27
Forty-seventh fiscal year.....	51,293 84
Total.....	\$139,138 66

"AND WHEREAS, During all of these years the books and accounts of the Superintendent of State Printing having never been expeted, and in justice to the said Superintendent, and, to the end that the whole matter be fully and fairly investigated, it is proper that all said books and accounts be expeted; therefore,

"Resolved, That the experts of this committee be instructed to investigate the books and accounts from and including the forty-second fiscal year to the present time."

The substitute was lost by the following vote: Ayes—Seawell and Caminetti. Noes—Dickinson, Dennery, Gillette, and Price

We have taken the Governor's veto message, the facts recited therein, and the charges made, as the basis of our investigation. Owing to the pressure of our legislative business, and the short time afforded us to devote to this inquiry, we have been unable to give it the thorough examination which its importance demands. We have, however, been enabled, without any extensive examination, to verify the truth of nearly all of the charges made by the Governor in his message.

In reviewing the Governor's charges, we find that they consist of general charges, illustrated by special instances of extravagance, mismanagement, and violations of law, and that they all center around and culminate in the grave charge that the report of the State Printer made to him was imperfect, not in the form required by law, and that the extravagance and mismanagement practiced in that office was such that it required \$146,000 to do \$94,000 worth of work in the forty-seventh fiscal year. This very serious charge we have made the subject of special investigation, and we find that the facts appear to support in every particular the Governor's statement. The State Printer's report submitted to the Governor shows that \$146,000 59 was expended during the forty-seventh fiscal year, and that at the beginning of said year he had on hand \$27,784 24 worth of stock, making a sum of \$173,784 83 to be accounted for. The same report shows that, as offset to this expenditure,

\$82,257 80 in "department printing" was done, and that at the end of the year he had on hand \$15,698 48 worth of stock. To this should be added \$4,558 20 for lithographing, and \$7,890 75 for legislative printing. In accordance with his own system of bookkeeping, as practiced in the previous year, when his accounts balanced, no other credits should be allowed him; but allowing him an additional credit for "permanent material," \$6,950 32, and "repairs, plumbing, fixtures, and improvements," \$5,048 56, we still find that, by his own report, as stated by the Governor, he does not account for the expenditure of over \$51,000 of his appropriation for the forty-seventh fiscal year. We have made every effort to account for this extraordinary deficiency, with the result that we have discovered that there is a total lack of system, or proper bookkeeping and ordinary business management in this office. As many as five efforts have been made by the Printing Office to account for this deficiency, and each explanation has been different, each has fallen short of accounting for it, and all have acknowledged and pleaded a serious violation of law in order to meet the case. The first statement bearing upon this question was in the written communication Mr. Johnston presented to the Board of Examiners, January —, 1897, asking the board to recommend to the Legislature an appropriation of \$75,000 for the support of his office for the balance of the current year. (See testimony of John Markley, p 532.) He therein stated that the appropriation for the legislative printing of the thirty-first session fell short "nearly \$28,000, which overdraft had to be carried to the appropriation of the forty-seventh and forty-eighth fiscal years." Later, a statement, purporting to come from the Printing Office, was published in the Bee of February 11, 1897. The figures here given are similar to the above in regard to the legislative item of \$28,000, and adds to the items credited by the Governor (but for which credit was not claimed the year before) the additional item of insurance, \$1,342 40, and for expenses in making a certain change in the bindery, the sum necessary to make a balance is charged.

When Mr Johnston was before our committee, he attempted an explanation of the \$51,000 deficiency, which differed in important particulars from previous explanations, and very materially from his report, which he admitted was incorrect.

Later, Mr. Johnston's bookkeeper, Mr. Hadley, in testifying before our committee, made another effort to explain this deficiency, which had points of difference with any explanation previously offered. All of the preceding explanations were insufficient and unsatisfactory, and all either assumed or directly admitted that an indebtedness had been contracted and a deficiency incurred during the latter part of the forty-sixth fiscal year, in plain violation of law, and that such indebtedness, which the law says "shall be null and void" and shall "not be paid out of any appropriation," was carried over to the next fiscal year, and paid out of an appropriation specifically made for another purpose.

For the purpose of having this question thoroughly settled and explained, your committee, by resolution, on March 15, 1897, instructed our financial experts to inquire into the matter, take the figures of the report of the Printer, to consider in that connection the message of the Governor, and to take and include the statements of the State Printer. From the reports of the experts under this resolution we find a fifth attempted explanation of the \$51,000 deficiency, which has no advantage over previous ones, and concludes by finding, after adopting the Printer's figures, a balance of \$21,105 54 still unaccounted for. The experts' report contains so complete a statement of the conditions existing in the Printing Office, and the manner in which its affairs are managed, that we submit a considerable portion of it with our report.

It recites:

"As given in the message of the Governor there is an apparent deficiency in the amounts tabulated in the official report of the State Printer. The State Printer, on being questioned as to this apparent deficiency, acknowledges that his report is incomplete and imperfect. He explains this incompleteness by saying that to offset the \$146,000 59 disbursed during the forty-seventh fiscal year, he accounts in his printed report, as found on pages 28 and 29, for department printing, etc., to the amount of \$94,706 75, which gives as a difference the amount as noted in the Governor's message of \$51,293 84.

"The Superintendent of State Printing calls our attention to the column of disbursements on page 22, aggregating \$146,000 59, and states that said table includes stock purchased and miscellaneous expenses, together with department printing, etc., but not given again in detail in his report as offsets. That is to say, to the sum of \$94,706 75, the department printing given in detail, must be added miscellaneous disbursements for repairs, insurance, permanent material, salaries of foremen, monthly employes, miscellaneous employes, proofreader, copyholder, and changes during removal. Hereinafter we give these amounts tabulated. They are taken mainly from the table found on page 22, but for much of this data we had to depend upon oral information given us by the State Printer, through his chief clerk, E. S. Hadley.

"From the same source we are informed that the omitted portion of the State Printer's report can never be accurately shown under the present system, as allowances must be made for waste in stock and waste in time, such as the revision of bad manuscript, time lost in waiting, and the pay of permanent employes, like the General Foreman, who does not set type.

"Further, the State Printer informs us that his report should show miscellaneous disbursements, and the percentage of cost outside of actual printing prorated to each department of State ordering work. In future, he says, his reports shall be made on this plan.

"Had tabulated statements containing those omitted parts been put in the State Printer's report in question of July, 1896, the discrepancies now apparent would not appear.

"The State Printer informs us further that much of the discrepancy unaccounted for is due to what he denotes 'undercharges.' As, for instance, 'changes in removal' is put down as \$2,136 30, when in reality it is nearly \$3,000; and, too, the charges for printing are put down at the actual cost of printing, regardless of the cost of light, water, fuel, etc.

"Concerning the resolution introduced by Senator Seawell, directing us to ascertain whether supplies were purchased during the forty-sixth fiscal year and paid for out of the appropriation of the forty-seventh fiscal year, we have to say that there is no way to obtain this information from the books examined by us, as we found and showed in our report, already submitted, that no bills appeared, unless dated in the fiscal year in which they were paid. Mr. Hadley, the chief clerk, informed us, however, that in the forty-sixth fiscal year, when it was found that the appropriation was about exhausted, bills in the neighborhood of \$15,000 were incurred, and the firms furnishing them instructed not to present them until the next fiscal year, and that these bills were dated and paid in the forty-seventh fiscal year, though properly belonging in the forty-sixth fiscal year, as the goods were delivered and used in that year.

"We again call your attention to the suggestion made in our submitted report, that additional books should be kept by the State Printer in which accounts should be kept not now shown. And here we would especially suggest the keeping of a stock or merchandise account, showing receipts and disbursements under that head as clearly and definitely as under any other. In other words, it appears to us that the books of a great institution, such as the State Printing Department is, should be kept upon the plan of the books of a great mercantile firm.

"The tabulation referred to herein, showing items of disbursement given by the State Printer to explain the apparent deficiency, is as follows:

"The chief clerk has this to add further in explanation of this sum of \$21,105 52, and we give the explanation in his own language and written by himself:

"From the item of 'composition,' as given on page 22 of the report, after deducting \$9,360 for salaries of general foreman, two assistant foremen, proofreader and copyholder, there remains the sum of \$35,191 95, representing the sum actually charged against the several departments. Mr. Thorpe and Mr. Rogers both testify that this charge is one third too low, which undercharge would, on this basis, be \$11,730. To this should be added the amount of bills unpaid in the forty-sixth year, and it is not possible to arrive at the exact sum, but I know it to exceed \$10,000. This, added to the undercharge of \$11,730, will equal \$21,730. If this sum is too large or too small to make a correct balance, it is only because the undercharge is not absolutely correct, or the sum of unpaid bills is more or less than \$10,000."

"Under your instructions to us this is the best possible information obtainable from the State Printer and his office.

"Very respectfully submitted.

"L. WADHAM,  
"J. C. RUDDOCK,  
"Experts."

This report established the charges made by the Governor in his veto message, and shows an extraordinary condition of affairs in this office. Mr. Johnston furnishes the Governor a report, which discloses the fact that more than \$51,000 was expended for which no return is made nor any account given. Now, after repeated attempts at explanation, and after nearly two months' time, this great discrepancy has not and cannot be explained, and the experts report that, allowing Mr. Johnston all the credits he has advanced a plausible claim for, and after his last and corrected explanation, there still remains totally unaccounted for the sum of \$21,105 52. The loose system of book-keeping disclosed by this investigation is extraordinary, and in view of the very large sums annually expended by this office, is most dangerous. The accounts are in such condition that the State Printer himself cannot explain them, nor can his bookkeeper; and a stranger, seeking to verify his statements, has nothing upon which to rely. In his efforts to explain this very serious deficiency in his accounts, Mr. Johnston relies chiefly upon three grounds:

First, that in the charges for printing he has not included certain items of stock, monthly employes, and expenses of superintendence; another, that about \$28,000 of the debts of the forty-sixth fiscal year were carried over and paid out of the appropriation for the forty-seventh and forty-eighth fiscal years; and a third, that the Board of Examiners passed upon all his claims, and consequently there are adequate checks upon his expenditures, and whatever discrepancies exist in his accounts were authorized by the board.

The first reason advanced does not appear tenable. No report heretofore made by the Superintendent of State Printing contains a setoff against the annual cost of running the printing department for the items of foremen, of salary of general foreman, office payroll, copyholders, etc. As a profit of from ten to twenty-three per cent is charged upon the work, it is quite evident that this charge is made to cover these very items of expense, and that an effort to add these charges now, when they had never been added before, is for the purpose of accounting for this present deficiency. As a fair example of reports made prior to Mr. Johnston's time, the following is a summary of the report made by J. D. Young, for the fortieth fiscal year:

Total amount expended from July 1, 1888, to June 30, 1889....	\$131,559 68
Amount of work done for departments.....	\$128,247 89
Less excess of stock on hand.....	3,806 44
Less permanent material.....	1,505 30
	<hr/> \$131,559 68

It will be seen that these accounts balance, and no mention is made of wages of general foreman, etc.

When it is recalled that the charges already made against items of printing are over thirty per cent higher than the same work could be done for at private establishments, it does not seem reasonable that any items of charge have been omitted.

The second cause advanced as having caused the discrepancy, is that about \$28,000 of the debts of the forty-sixth fiscal year were carried over and paid in the forty-seventh. If this were done, and it has been repeatedly stated and admitted, it was done in direct violation of law. The law expressly provides that no officer shall incur any indebtedness in excess of the appropriation made for the support of his office, without first having obtained the consent of the Governor, Attorney-General, and Secretary of State; and it further provides that any indebtedness attempted to be created in violation of this law shall be null and void, and shall not be paid out of any appropriation. Mr. Johnston violated this law directly, and in order to have his bills allowed by the Board of Examiners and paid by the Controller, he must have misdated his claims, and sworn that they were incurred at a time and under conditions which were not correct. Too much importance cannot be attached to this fact. It shows a violation of law, an affidavit which misled the Board of Examiners and the State Controller, and a misapplication of a specific appropriation.

The third cause pleaded in extenuation of the deficiency is, that whatever condition attended the financial management of this office was sanctioned by the Board of Examiners. This plea calls attention to the absolute absence of any restrictions, safeguards, or checks upon the expenditure of the very large appropriation made for the support of this office. The State Printing Office handles over \$200,000 annually, and there are less checks upon the expenditure of this great sum than there are upon almost any other item of State expenditure, no matter how trifling. In other State institutions which are managed by boards or commissions, the purchase of supplies and expenditure of money is generally required to be done under contract. This is one check. There is generally employed a commissary, who receipts for and inspects supplies or materials delivered. This is another check. For the management of such institutions there is in most cases a local board or directory, which passes upon and audits all claims made for the support of that institution. This is an additional check, which is sometimes fortified by a separate audit by a finance committee of said board or directory. Thereafter such accounts, after these numerous inspections, are transmitted to the State Board of Examiners, who have in their possession a copy of any contract under which the money is expended, who finally pass upon and audit the claims. In the matter of the State Printing Office none of these checks exist. The State Board of Examiners have absolutely no information at their command for determining whether

the goods were received, and, as he keeps no "stock book" this question cannot easily be determined, or whether the labor has been actually performed, or whether improvements have been made, or whether the prices charged are reasonable. The Superintendent makes an affidavit to the claims which he presents, and if the affidavit is in form as required by law, the board are controlled by it, and unless information is received from some unusual source, they have no means of determining the truth or falsity of his claims, but must let them go as presented. To show how easily they might be misled in this matter, we instance the case mentioned by the Governor, where a payroll was presented for the time from July 1 to July 18, 1896, to which was attached the usual affidavit that the work had been done and the labor performed at the time therein mentioned. It transpired that during a large part of such time the State Printing Office had been closed, and the work was not done as stated in the payroll.

Again, the State Printer, in accounting for the \$51,000 shortage for the forty-seventh fiscal year, stated that \$28,000 of that amount was for claims and indebtedness carried over from the forty-sixth fiscal year. If this fact had appeared in the payrolls and claims presented to the Board of Examiners they would not have been allowed, and the fact remains that they were misled in this matter, and had no means at their command of discovering the truth of these claims as presented. The fact remains that the discrepancy pointed out by the Governor remains unexplained and unaccounted for. The matter is of so serious a nature that we refrain from comment, other than to state that prompt and radical measures should be taken to prevent such an occurrence in the future, and to correct the defective conditions under which it became possible.

Another serious charge made by the Governor was that the State Board of Education had, at a certain time, made an order directing the Superintendent of State Printing to print no more copies of a certain grammar of the State series of school text-books. We find that this was an order which was within the powers of the State Board of Education, and the authority conferred upon them by the Constitution and by law. In violation of this order the Superintendent printed about ten thousand copies of this grammar; and that the work was unnecessary is shown by the fact that he now has on hand about seven thousand copies, which will in all probability never be used.

The Governor's charge, that the contract entered into by the Superintendent for the purchase of electric power was an unbusiness-like and extravagant one, is fully justified by the evidence we have taken. We find that the State Printer, without consulting with or obtaining the consent of the State Board of Examiners, entered into a contract with an electric power company for fifty horse-power, for which he was to pay \$236 per month. Since he has been receiving this electric power, he has continued to use steam for various purposes around the building. No meter is used in connection with this electric power, and no means exist for ascertaining whether the power paid for is actually received. What power is received is not economically utilized, and if it were it is more than sufficient to run all the machinery in the State Printing Office.

It appears that, by a proper system, the presses may be made to do more work, which would result in the employment of a less number of men, and great saving to the State. The Governor charges that the office has been extravagantly conducted, especially in the employment of help. There is a great amount of evidence to support this charge. The printing experts find that the system under which help is employed is wasteful, and incompetent persons are employed to perform work for which they are unqualified, and the result is an excessive number of persons to do the work. There are great fluctuations in the payroll at different seasons of the year, and between the same time of different years, and no satisfactory explanation is given of this variation. We cannot find any satisfactory evidence that at the times when the most persons were employed the work had correspondingly increased; and we also find that at the time when by law the greatest amount of work is required to be done, the rolls were not as full as at times when less work was required to be done. And it is a fact, though it may only be a coincidence, that the times of largest rolls and greatest employment correspond closely with the holding of political conventions and primaries, and with elections. For example: For the month of May, 1895, an average of 142 persons were employed, while in May, 1896, about the time of the holding of the Republican State Convention, the average number was 204; in June, 1895, an average of 102 persons were employed, and in June, 1896, shortly after the Republican Convention, 204, or exactly twice as many persons were employed; again, in October, 1895, just before the Sacramento city election, 232 persons were employed, while in the following December, the number had fallen to 170. In the months of October and November, 1896, just before and succeeding the last general election, the average number of employés was 242 and 253, respectively. In the December following, the number had fallen to 196.

The system of accounts in this office is unsatisfactory and imperfect. The best evidence of this fact is the inability of the Superintendent, or his bookkeeper, to account for the great discrepancy of \$51,000 between the amount expended for work and the value of the work performed during the forty-seventh fiscal year. The financial experts find that there is only one time-book kept at the office, while there are two separate and distinct classes of employment there. The law provided that the State school text-books shall be sold at cost; the time of the persons employed in the printing of these books is kept in the same book with the time of persons employed in the general department, and no means exist of determining for what time and how many persons are employed upon the printing of such books. This being so, how can the cost of these books be determined?

The experts further report that no account is kept with the revolving fund, and no

account is kept with the different appropriations. The printing experts further testify that no stock-book is kept. This is a very serious omission, and an omission which makes it a difficult, if not impossible, matter to tell what amount of stock is on hand.

We further find, as charged by the Governor, that the printing in this State costs very much more than in other States, and there is not given any sufficient reason why this should be so. The printing experts find that it costs from thirty to forty per cent more to do the printing for the State at the State Printing Office than the same work could be done for in a private establishment. This shows very gross extravagance or mismanagement.

To summarize our conclusions: We find such extravagance and unbusiness-like practices in the Printing Office that, in the forty-seventh fiscal year, \$146,000 was spent to do \$94,000 worth of work.

We find that about \$20,000 worth of supplies were purchased and delivered in the forty-sixth fiscal year, but in violation of law these bills were dated, sworn to, and presented to the Board of Examiners in the forty-seventh fiscal year. The Superintendent of State Printing thus creating a deficiency in the forty-sixth fiscal year without the consent of the Board of Examiners, and thus causing said bills to be paid in the forty-seventh fiscal year.

We find that only one time-book is kept for both the school text-book department and the printing department; therefore, it is impossible to tell, from the books kept in the office, the cost of the school books; that no accounts are kept regarding the school book fund, or of the annual appropriations, and further, that no stock-book is kept.

We find that the reports made by the Superintendent of State Printing to the Governor are not itemized, as required by law; and are inaccurate and misleading.

We find that in passing upon the claims of the State Printer the State Board of Examiners are controlled almost absolutely by the affidavits of the Superintendent of State Printing, as is evidenced by the fact that the board approved claims in the forty-seventh fiscal year for the forty-sixth fiscal year, upon said affidavits.

We find that the Superintendent of State Printing printed ten thousand grammars of an old edition, in violation of the order of the State Board of Education.

We find that, without the consent of the State Board of Examiners, the power in the building was changed from steam to electricity, the Printer contracting to pay \$230 per month for fifty horse-power; that the electricity delivered is not measured, and although the amount paid for is ample to run all the machinery, part of the machinery is still run by steam at great cost.

We find that a great deal of inexperienced help is employed to perform services of a technical or experienced character, and that a considerable loss results to the State from this cause.

We find that the printing experts report as necessary a number of business reforms, and reforms of management, and report that if the affairs of the office were reduced to a business system a saving of from \$15,000 to \$20,000 would result to the State.

We find that the financial experts recommend, and we concur in their recommendation, that the Printer keep an "appropriation account," so that the condition of his finances can be determined, and that the payment of claims of one year out of the appropriation for another be avoided.

The experts recommend, and we join with them, that two "time-books" should be kept instead of one, so that the school-book fund can be kept separate and not be used for other purposes.

We also recommend such legislation as will correct the abuses above set forth, and also emphatically recommend that, in view of the evidence in this case, and in accordance with the most elementary business principles, some checks be placed upon the great appropriations made for the support of the Printing Office, and that additional safeguards be thrown around it.

Immediate legislation should be enacted to provide a board of auditors to investigate and report upon Printing Office claims before they are reported to the Board of Examiners, or the latter board should be authorized to employ a printing expert, with full power to make all examinations necessary to enable them to pass upon such claims presented to them, with full knowledge of their character.

We further recommend that the Board of Capitol Commissioners, who, under the law, have charge of the building in which the printing department is located, take immediate action to make the mechanical improvements and business arrangements necessary to inaugurate the reforms recommended by the printing experts.

In relation to the State Printing Office, we desire to say that we favor the continuance of the office under the present laws, with such amendments as experience dictates to be necessary to secure an economical administration of the affairs thereof, and the introduction of the reforms hereinbefore suggested, and contained in the report of the experts. We favor laws requiring that all supplies shall be purchased under contracts, and that all labor shall be performed under the day system. The day system we believe to be absolutely necessary, as the prices paid have a tendency to keep up wages outside of the State Printing Office, as against the downward tendency caused by the introduction of typesetting machines in private offices.

We feel that, as this office publishes the State school text-books, every precaution should be exercised to secure the printing thereof at the lowest possible cost, so that the patrons of our schools may receive the benefits intended to be conferred by the law. We believe this investigation has not been in vain, and that beneficial results will follow it—not only to the State, but to the printing fraternity generally. Our purpose has not

been to establish personal dishonesty in the State Printer, but to investigate the business management of the office, and the irregularities found are sufficiently accounted for in the loose management and the extravagant methods mentioned above. We have desired to benefit the service, and reform the practices that prevent the State Printing Office from giving to the people, especially in the publication of school books, the greatest possible advantage compatible with the proper execution of the work intrusted to it.
